Beyond the Light Barrier

Light Technology Publishing **Beyond the Light Barrier** is the autobiographical story of Elizabeth Klarer, a South African woman and Akon, an astrophysicist from Meton, a planet of Proxima Centuri that, at a distance of about 4.3 light years, is our nearest stellar neighbor. Elizabeth was taken in his spaceship to Meton, where she lived with him and his family for four months and where she bore his child. Her life on Meton is fascinatingly described. Akon brought Elizabeth back to Earth after the birth of their son, and continued to visit her thereafter. Akon explained how his spaceship's light-propulsion technology operated, and how it allowed him and his people to travel across vast interstellar distances. This technology is explained in detail in the book. Elizabeth was given a standing ovation at the 11th International Congress of UFO Research Groups at Weisbaden in 1975, and her speech as guest of honor was applauded by scientists of twenty-two nations. Light Technology Publishing is proud to bring you the long-awaited American edition in both hard copy and electronic format of **Beyond the Light Barrier**, which was first published in English in 1980

Andean Cocaine

The Making of a Global Drug

Univ of North Carolina Press **Illuminating a hidden and fascinating chapter in the history of globalization, Paul Gootenberg chronicles the rise of one of the most spectacular and now illegal Latin American exports: cocaine. Gootenberg traces cocaine's history from its origins as a medical commodity in the nineteenth century to its repression during the early twentieth century and its dramatic reemergence as an illicit good after World War II. Connecting the story of the drug's transformations is a host of people, products, and processes: Sigmund Freud, Coca-Cola, and Pablo**

Escobar all make appearances, exemplifying the global influences that have shaped the history of cocaine. But Gootenberg decenters the familiar story to uncover the roles played by hitherto obscure but vital Andean actors as well--for example, the Peruvian pharmacist who developed the techniques for refining cocaine on an industrial scale and the creators of the original drug-smuggling networks that decades later would be taken over by Colombian traffickers. *Andean Cocaine* proves indispensable to understanding one of the most vexing social dilemmas of the late twentieth-century Americas: the American cocaine epidemic of the 1980s and, in its wake, the seemingly endless U.S. drug war in the Andes.
