ENGLISH FOR BUSINESS COMMUNICATION

Penerbit Andi Buku yang membantu proses belajar mengajar sehingga dapat meningkatkan kemampuan bicara dan komunikasi dalam bahasa Inggris.

ACTION RESEARCH INTO TEACHING ENGLISH IN RUSSIA'S PROFESSIONAL CONTEXT

Cambridge Scholars Publishing This book is a result of the investigative attempts of linguistics professionals to identify and meet the challenges of developing communicative competence in future engineers, economists and other such specialists. The unifying feature of all the contributions brought together here is the active involvement of the authors in practical instruction of English for specific professional purposes at the tertiary (bachelors' and masters' programs) level in Russia. This volume covers a number of relevant areas in this field, including new developments in methodology, approaches to course and materials design, and the contribution of language theory to foreign language teaching in a professional context. The unique teaching approach advocated in this book denounces the traditional practice of transferring classical methodology of communicative-oriented teaching to language classes for students with a non-linguistic or non-teaching professional orientation. The underlying idea of this volume is that a change in professional context implies a change in language teaching methodology, including materials, techniques and target competences. The ideas and experiences analysed here will appeal to anyone interested in the current trends in foreign language teaching and learning and particularly to educationalists.

THE THEORY OF THE BUSINESS (HARVARD BUSINESS REVIEW CLASSICS)

Harvard Business Press Peter F. Drucker argues that what underlies the current malaise of so many large and successful organizations worldwide is that their theory of the business no longer works. The story is a familiar one: a company that was a superstar only yesterday finds itself stagnating and frustrated, in trouble and, often, in a seemingly unmanageable crisis. The root cause of nearly every one of these crises is not that things are being done poorly. It is not even that the wrong things are being done. Indeed, in most cases, the right things are being done—but fruitlessly. What accounts for this apparent paradox? The assumptions on which the organization has been built and is being run no longer fit reality. These are the assumptions that shape any organization's behavior, dictate its decisions about what to do and what not to do, and define what an organization considers meaningful results. These assumptions are what Drucker calls a company's theory of the business. The Harvard Business Review Classics series offers you the opportunity to make seminal Harvard Business Review articles a part of your permanent management library. Each highly readable volume contains a groundbreaking idea that continues to shape best practices and inspire countless managers around the world—and will have a direct impact on you today and for years to come.

MANAGING IN A VUCA WORLD

Springer This book examines volatility, uncertainty, complexity and ambiguity (VUCA) and addresses the need for broader knowledge and application of new concepts and frameworks to deal with unpredictable and rapid changing situations. The premises of VUCA can shape all aspects of an organization. To cover all areas, the book is divided into six sections. Section 1 acts as an introduction to VUCA and complexity. It reviews ways to manage complexity, while providing examples for tools and approaches that can be applied. The main focus of Section 2 is on leadership, strategy and planning. The chapters in this section create new approaches to handle VUCA environments pertaining to these areas including using the Tetralemma logics, tools from systemic structural constellation (SySt) approach of psychotherapy and organizational development, to provide new ideas for the management of large strategic programs in organizations. Section 3 considers how marketing and sales are affected by VUCA, from social media's influence to customer value management. Operations and cost management are highlighted in Section 4. This section covers VUCA challenges within global supply chains and decision-oriented controlling. In Section 5 organizational structure and process management are showcased, while Section 6 is dedicated to addressing the effects of VUCA in IT, technology and data management. The VUCA forces present businesses with the need to move from linear modes of thought to problem solving with synthetic and simultaneous thinking. This book should help to provide some starting points and ideas to deal with the next era. It should not be understood as the end of the road, but as the beginning of a journey exploring and developing new concepts for a new way of management.

The book concludes by assessing how business leadership in Asia is likely to develop in future.

BUSINESS AND SOCIETY

MAKING MANAGEMENT EDUCATION RELEVANT FOR THE 21ST CENTURY

Springer The world of business is constantly evolving and management education institutions will likely face a number of challenges in keeping up with these changes. While most books focus on the needs of management education institutions, this work addresses the needs of the corporate world in the era of the Fourth Industrial Revolution. Featuring an extensive research study spanning 11 countries, it offers a unique perspective on the business challenges and developmental needs of companies in emerging and recently emerged economies, and on the missing links between those needs and management education. Using both company-specific and country-level data, the book provides businesses and educators with rare insights and recommendations on strengthening existing partnerships (or establishing them anew) between management education institutions and the corporate sector in order to make management education relevant for the 21st century. The book argues that 'relevance' should take the center-stage of all higher education institutions in order to accomplish their third mission, namely service to society. This is especially important for management education institutions, whose mission is to mold future managers and leaders who can have a significant influence on economic success and the wellbeing of society.

DAVID RIESMAN'S UNPUBLISHED WRITINGS AND CONTINUING LEGACY

Routledge It has been over 60 years since David Riesman's most famous work *The Lonely Crowd* brought him international acclaim. While this remains a best-selling sociology book, Riesman's expertise and publications spanned far beyond the treatment of the American social character type offered there. This volume recasts and reintroduces Riesman by presenting newly discovered and unpublished manuscripts of his work, including excerpts from a previously unpublished critical biography of Freud that Riesman began with this assistant at the time, Philip Rieff, an interview in which Riesman describes in detail his early biography and his route into the social sciences, and other research notes and memoranda. With additional chapters analyzing the unpublished works, as well as discussions of Riesman as a public intellectual, his multi-disciplinary method of understanding society and his connections with figures such as Goffman and Fromm, this book will appeal to scholars of sociology, social theory and the history of American social science.

CORPORATE SOCIAL PERFORMANCE IN EMERGING MARKETS

SUSTAINABLE LEADERSHIP IN AN INTERDEPENDENT WORLD

Routledge When it comes to perceptions of what is a sustainable economy and how it may be realised, companies expanding into Central and Eastern European markets face the challenge of diverse people, attitudes and history. *Corporate Social Performance in Emerging Markets* provides an effective tool for companies to help them engage in CSR activities and become a responsible company in CEE countries such as Poland, Hungary, the Czech Republic, Slovakia, Croatia and Slovenia. It does this by enabling them to focus on the difference of stakeholders and their attitudes to those of Western Europe. The author, Zsófia Lakatos, provides a review of the major differences between the various CEE countries, supported by interview research from leading executives in some of the blue-chip companies already operating in the region.

CAPITALIST NIGGER

THE ROAD TO SUCCESS - A SPIDER WEB DOCTRINE

Jonathan Ball Publishers *Capitalist Nigger* is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A *Capitalist Nigger* must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the *Capitalist Nigger*, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' - discipline, self-reliance, ruthlessness - to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.

Interspersed throughout the book are five Business Skills mini-units and five Work on Writing mini-units. In the former, students are introduced to a topic, given advice from experts in the field and then asked to practice each skill through role plays and informal presentations; in the latter, students are provided with writing tips and asked to analyze a work-related text type before being given the chance to write a similar text of their own. English for Successful International Communication (B2) was born out of ESIC's 5 Cultures Program, which incorporates the areas of Service to Stakeholders, Excellence, Responsibility, Diversity and Innovation. The innovative content and subject matter of each unit was selected with Business students—specifically, ESIC stakeholders—in mind, and is intended to reflect material they deal with in their degree program coursework.
