Glory and Terror

Seven Deaths Under the French Revolution

Psychology Press Antoine de Baecque takes a look at the very public death of the great orator and libertine, Mirabeau; describes the pageantry of the procession carrying Voltaire's body to the Pantheon; and investigates the sexually-charged myths surrounding the murder of Marie Antoinette's intimate friend, the Princesse de Lamballe. He recreates the tense and awe-inspiring spectacle of Louis XVI's execution, and examines the agonizing final hours of the defeated and disfigured Robespierre.--BOOK JACKET.

Carlyle and the Economics of Terror

A Study of Revisionary Gothicism in The French Revolution

McGill-Queen's Press - MQUP Thomas Carlyle's difficult and obscure prose - the bane of every reader who has attempted to come to terms with his works - has often been interpreted as a reflection of the author's temperament or idiosyncrasies. Mary Desaulniers, however, argues that Carlyle's language is a deliberate strategy for revisioning language and places it within an "economics" of representation. By situating his prose within the Gothic tradition, with its history of resistance to linguistic transparency, Desaulniers makes the provocative claim that in The French Revolution Carlyle uses revisionary Gothicism as a linguistic vehicle for economic and political issues.

A Concise History of the French Revolution

Rowman & Littlefield Pub Incorporated "This concise introduction to the French Revolution explains the origins, development, and eventual decline of a movement that defines France to this day. Through an accessible chronological narrative, Sylvia Neely explains the complex events, conflicting groups, and rapid changes that characterized this critical period in French History. She traces the fundamental transformations in government and society that forced the French to come up with new ways of thinking about their place in the world and led to liberalism, conservatism, terrorism, and modern nationalism. All readers interested in France and revolutionary history will find this a rewarding read."--BOOK JACKET.

Revolutionary Moments

Reading Revolutionary Texts

Bloomsbury Publishing This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. Since at least the mid-seventeenth century, the concept of revolution has been an important tool both for those seeking to bring about political change and for those trying to understand it. And it is as relevant today as it has ever been. This volume re-evaluates our understanding of the history of revolutionary thought by examining a selection of key texts. These range from the 17th to the 20th century, and are carefully chosen to include both constitutional documents and theoretical works by figures such as James Harrington, Jean-Jacques Rousseau, Maximilian Robespierre, Peter Kropotkin and Deng Xiaoping Each chapter engages with a particular revolutionary moment via a specific text, usually an extract of around 300 words, and considers the significance of the text for the history of revolutionary thought. The structure of the book allows readers to make connections and comparisons across the different revolutionary texts and moments, thereby providing a broader, deeper and more nuanced understanding of revolutions. Stimulating, accessible and interdisciplinary, Revolutionary Moments will appeal to students and

researchers in the history of political thought and intellectual history, and beyond.

The Declaration of the Rights of Man and the Citizen 1789 and 1793

Ending the Terror

The French Revolution After Robespierre

Cambridge University Press A major assessment of a crucial moment in the history of the French Revolution - the fall of Robespierre in July 1794.

The Furies

Violence and Terror in the French and Russian Revolutions

Mayer's comparative reading of the French and Russian revolutions gives fresh meaning to events today and provides a warning signal for the future. The historian's startling conclusion is that revolutions flame greater terrors, regardless of who leads them or what they believe.

Reflections on the Revolution in France ... The third edition

Revolutions: A Very Short Introduction

Oxford University Press Revolutions have shaped world politics for the last three hundred years. This volume shows why revolutions occur, how they unfold, and where they created democracies and dictatorships. Jack A. Goldstone presents the history of revolutions from America and France to the collapse of the Soviet Union, 'People Power' revolutions, and the Arab revolts.

Pre-Incident Indicators of Terrorist Incidents

The Identification of Behavioral, Geographic and Temporal Patterns of Preparatory Conduct

DIANE Publishing This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

Global Trends 2030

Alternative Worlds

Createspace Independent Publishing Platform This publication covers global megatrends for the next 20 years and how they will affect the United States. This is the fifth installment in the National Intelligence Council's series aimed at providing a framework for thinking about possible futures and their implications. The report is intended to stimulate strategic thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories during the next 15-20 years by identifying critical trends and potential discontinuities. The authors distinguish between megatrends, those factors that will likely occur under any scenario, and game-changers, critical variables whose trajectories are far less certain. NIC 2012-001. Several innovations are included in Global Trends 2030, including: a review of the four previous Global Trends reports, input from academic and other experts around the world, coverage of disruptive technologies, and a chapter on the potential trajectories for the US role in the international system and the possible the impact on future international relations. Table of Contents: Introduction 1 Megatrends 6 Individual Empowerment

8 Poverty Reduction 8 An Expanding Global Middle Class 8 Education and the Gender Gap 10 Role of Communications Technologies 11 Improving Health 11 A MORE CONFLICTED IDEOLOGICAL LANDSCAPE 12 Diffusion of Power 15 THE RISE AND FALL OF COUNTRIES: NOT THE SAME OLD STORY 17 THE LIMITS OF HARD POWER IN THE WORLD OF 2030 18 Demographic Patterns 20 Widespread Aging 20 Shrinking Number of Youthful Countries 22 A New Age of Migration 23 The World as Urban 26 Growing Food, Water, and Energy Nexus 30 Food, Water, and Climate 30 A Brighter Energy Outlook 34 Game-Changers 38 The Crisis-Prone Global Economy 40 The Plight of the West 40 Crunch Time Too for the Emerging Powers 43 A Multipolar Global Economy: Inherently More Fragile? 46 The Governance Gap 48 Governance Starts at Home: Risks and Opportunities 48 INCREASED FOCUS ON EQUALITY AND OPENNESS 53 NEW GOVERNMENTAL FORMS 54 A New Regional Order? 55 Global Multilateral Cooperation 55 The Potential for Increased Conflict 59 INTRASTATE CONFLICT: CONTINUED DECLINE 59 Interstate Conflict: Chances Rising 61 Wider Scope of Regional Instability 70 The Middle East: At a Tipping Point 70 South Asia: Shocks on the Horizon 75 East Asia: Multiple Strategic Futures 76 Europe: Transforming Itself 78 Sub-Saharan Africa: Turning a Corner by 2030? 79 Latin America: More Prosperous but Inherently Fragile 81 The Impact of New Technologies 83 Information Technologies 83 AUTOMATION AND MANUFACTURING TECHNOLOGIES 87 Resource Technologies 90 Health Technologies 95 The Role of the United States 98 Steady US Role 98 Multiple Potential Scenarios for the United States' Global Role 101 Alternative Worlds 107 Stalled Engines 110 FUSION 116 Gini-out-of-the-Bottle 122 Nonstate World 128 Acknowledgements 134 GT2030 Blog References 137 Audience: Appropriate for anyone, from businesses to banks, government agencies to start-ups, the technology sector to the teaching sector, and more. This publication helps anticipate where the world will be: socially, politically, technologically, and culturally over the next few decades. Keywords: Global Trends 2030 Alternative Worlds, global trends 2030, Global Trends series, National Intelligence Council, global trajectories, global megatrends, geopolitics, geopolitical changes

The Family on Trial in Revolutionary France

Univ of California Press Annotation A sophisticated and groundbreaking book on what women actually did and what actually happened to them during the French Revolution.

britain in modern times

CUP Archive

Documents in English Translation

The Black Book of Communism

Crimes, Terror, Repression

Harvard University Press Collects and analyzes seventy years of communist crimes that offer details on Kim Sung's Korea, Vietnam under "Uncle Ho," and Cuba under Castro.

Interpreting the French Revolution

Cambridge University Press The author applies the philosophies of Alexis de Tocqueville and Augustin Cochin to both historical and contemporary explanations of the French Revolution.

The State and Revolution

Penguin UK State and Revolution was written by Lenin during August-September, 1917, while he was living in hiding in Helsingfors. It was not published, however, until 1918. According to the draft of the original plan made by Lenin, the work was to contain not only a theoretical analysis of the theory of the state by Marx and Engels, but also a consideration of the "the experience of the Russian Revolutions of 1905 and 1917" from the point of view of this theory. But the October Revolution and the necessity to devote every effort to the immediate practical work interfered with the conclusion of the work begun.

Reading Alasdair MacIntyre's After Virtue

A&C Black Concise guide to MacIntyre's most important book, After Virtue, examining its arguments in detail and placing it within the broader context of MacIntyre's career.

The French Revolution

Citizens

A Chronicle of the French Revolution

Vintage Canada Considers the fullest resources of social, cultural, and political history and includes accounts of private and public lives to help see the reality of the revolution.

The Oxford Handbook of the French Revolution

Oxford Handbooks Brings together a sweeping range of expert and innovative contributions to offer engaging and thought-provoking insights into the history and historiography of the French Revolution, particularly its legacies in transnational and global contexts.

The Citizenship Experiment

Contesting the Limits of Civic Equality and Participation in the Age of Revolutions

Studies in the History of Poli Focusing on the United States, France and the Dutch Republic in the revolutionary 1790s, The Citizenship Experiment explores the convergence and divergence of Atlantic citizenship ideals in light of the Haitian Revolution and the French revolutionary Terror.

Global Trends 2030

Alternative Worlds : a Publication of the National Intelligence Council

U.S. Government Printing Office This report is intended to stimulate thinking about the rapid and vast geopolitical changes characterizing the world today and possible global trajectories over the next 15 years. As with the NIC's previous Global Trends reports, we do not seek to predict the future, which would be an impossible feat, but instead provide a framework for thinking about possible futures and their implications. In-depth research, detailed modeling and a variety of analytical tools drawn from public, private and academic sources were employed in the production of Global Trends 2030. NIC leadership engaged with experts in nearly 20 countries, from think tanks, banks, government offices and business groups, to solicit reviews of the report.

Access to History: France in Revolution 1774–1815 Sixth Edition

Hachette UK Exam board: AQA; Pearson Edexcel; OCR Level: AS/A-level Subject: History First teaching: September 2015 First exams: Summer 2016 (AS); Summer 2017 (A-level) Put your trust in the textbook series that has given thousands of A-level History students deeper knowledge and better grades for over 30 years. Updated to meet the demands of today's A-level specifications, this new generation of Access to History titles includes accurate exam guidance based on examiners' reports, free online activity worksheets and contextual information that underpins students' understanding of the period. - Develop strong historical knowledge: in-depth analysis of each topic is both authoritative and accessible - Build historical skills and understanding: downloadable activity worksheets can be used independently by students or edited by teachers for classwork and homework - Learn, remember and connect important events and people: an introduction to the period, summary diagrams, timelines and links to additional online resources support lessons, revision and coursework - Achieve exam success: practical advice matched to the requirements of your A-level specification incorporates the lessons learnt from previous exams - Engage with sources, interpretations and the latest historical research: students will evaluate a rich collection of visual and written materials, plus key debates that examine the views of different historians

Revolutionary Russia, 1891-1991

A History

Metropolitan Books From the author of A People's Tragedy, an original reading of the Russian Revolution, examining it not as a single event but as a hundred-year cycle of violence in pursuit of utopian dreams In this elegant and incisive account, Orlando Figes offers an illuminating new perspective on the Russian Revolution. While other historians have focused their examinations on the cataclysmic years immediately before and after 1917, Figes shows how the revolution, while it changed in form and character, nevertheless retained the same idealistic goals throughout, from its origins in the famine crisis of 1891 until its end with the collapse of the communist Soviet regime in 1991. Figes traces three generational phases: Lenin and the Bolsheviks, who set the pattern of

destruction and renewal until their demise in the terror of the 1930s; the Stalinist generation, promoted from the lower classes, who created the lasting structures of the Soviet regime and consolidated its legitimacy through victory in war; and the generation of 1956, shaped by the revelations of Stalin's crimes and committed to "making the Revolution work" to remedy economic decline and mass disaffection. Until the very end of the Soviet system, its leaders believed they were carrying out the revolution Lenin had begun. With the authority and distinctive style that have marked his magisterial histories, Figs delivers an accessible and paradigm-shifting reconsideration of one of the defining events of the twentieth century.

Punch

Hitler's Prisons

Legal Terror in Nazi Germany

Yale University Press State prisons played an indispensable part in the terror of the Third Reich, incarcerating many hundreds of thousands of men and women during the Nazi era. This important book illuminates the previously unknown world of Nazi prisons, their victims, and the judicial and penal officials who built and operated this system of brutal legal terror. Nikolaus Wachsmann describes the operation and function of legal terror in the Third Reich and brings Nazi prisons to life through the harrowing stories of individual inmates. Drawing on a vast array of archival materials, he traces the series of changes in prison policies and practice that led eventually to racial terror, brutal violence, slave labour, starvation, and mass killings. Wachsmann demonstrates that ordinary legal officials were ready collaborators who helped to turn courts and prisons into key components in the Nazi web of terror. And he concludes with a discussion of the whitewash of the Nazi legal system in post-war West Germany.

Anger, Revolution, and Romanticism

Cambridge University Press The Romantic age was one of anger and its consequences: revolution and reaction, terror and war. Andrew M. Stauffer explores the changing place of anger in the literature and culture of the period, as English men and women rethought their relationship to the aggressive passions in the wake of the French Revolution. Drawing on diverse fields and discourses such as aesthetics, politics, medicine and the law and tracing the classical legacy the Romantics inherited, Stauffer charts the period's struggle to define the relationship of anger to justice and the creative self. In their poetry and prose, Romantic authors including Blake, Coleridge, Godwin, Shelley and Byron negotiate the meanings of indignation and rage amidst a clamorous debate over the place of anger in art and in civil society. This innovative book has much to contribute to the understanding of Romantic literature and the cultural history of the emotions.

The Rebel

Penguin UK The Rebel is Camus's 'attempt to understand the time I live in' and a brilliant essay on the nature of human revolt. Published in 1951, it makes a daring critique of communism - how it had gone wrong behind the Iron Curtain and the resulting totalitarian regimes. It questions two events held sacred by the left wing - the French Revolution of 1789 and the Russian Revolution of 1917 - that had resulted, he believed, in terrorism as a political instrument. In this towering intellectual document, Camus argues that hope for the future lies in revolt, which unlike revolution is a spontaneous response to injustice and a chance to achieve change without giving up collective and intellectual freedom.

Disciplining Terror

How Experts Invented 'Terrorism'

Cambridge University Press Since 9/11, we have been told that terrorists are pathological evildoers. Yet before the 1970s, hijackings, assassinations, and other acts now called 'terrorism' were considered the work of rational actors. Disciplining Terror explains how political violence became 'terrorism', and how this transformation ultimately led to the current 'war on terror'.

Crimes Committed by Terrorist Groups

Theory, Research, and Prevention

DIANE Publishing This is a print on demand edition of a hard to find publication. Examines terrorists; involvement in a variety of crimes ranging from motor vehicle violations, immigration fraud, and mfg. illegal firearms to counterfeiting, armed bank robbery, and smuggling weapons of mass destruction. There are 3 parts: (1) Compares the criminality of internat. jihad groups with domestic right-wing groups. (2) Six case studies of crimes includes trial transcripts, official reports, previous scholarship, and interviews with law enforce. officials and former terrorists are used to explore skills that made crimes possible; or events and lack of skill that the prevented crimes. Includes brief bio. of the terrorists along with descriptions of their org., strategies, and plots. (3) Analysis of the themes in closing arguments of the transcripts in Part 2. Illus.

The Night the Old Regime Ended

August 4, 1789 and the French Revolution

Penn State University Press If the Fall of the Bastille on July 14, 1789, marks the symbolic beginning of the French Revolution, then August 4 is the day the Old Regime ended, for it was on that day (or, more precisely, that night) that the National Assembly met and undertook sweeping reforms that ultimately led to a complete reconstruction of the French polity. What began as a prearranged meeting with limited objectives suddenly took on a frenzied atmosphere during which dozens of noble deputies renounced their traditional privileges and dues. By the end of the night, the Assembly had instituted more meaningful reform than had the monarchy in decades of futile efforts. In *The Night the Old Regime Ended*, Michael Fitzsimmons offers the first full-length study in English of the night of August 4 and its importance to the French Revolution. Fitzsimmons argues against François Furet and others who maintain that the Terror was implicit in the events of 1789. To the contrary, Fitzsimmons shows that the period from 1789 to 1791 was a genuine moderate phase of the Revolution. Unlike all of its successor bodies, the National Assembly passed no punitive legislation against recalcitrant clergy or émigrés, and it amnestied all those imprisoned for political offenses before it disbanded. In the final analysis, the remarkable degree of change accomplished peacefully is what distinguishes the early period of the Revolution and gives it world-historical importance.

Revolutionary Writings

Reflections on the Revolution in France and the First Letter on a Regicide Peace

Cambridge University Press An accessible and annotated edition of Burke's *Reflections on the Revolution in France* with the first *Letter on a Regicide Peace*.

The Price of Fear

Al-Qaeda and the Truth Behind the Financial War on Terror

I. B. Tauris This book discusses how terrorists raise and transfer money to finance terrorism, and discusses the laws, rules and regulations designed to combat the process. In the process, the author discusses the faulty assumption which has formed the basis of the U.S. financial war on terror: that Al-Qaeda and other related terrorist groups were comparable to drug lords and other international gangsters, and that the methods derived from the war on drugs could be uncritically transposed to the fight against terror. He concludes that tracking clean money being "soiled" for illicit purposes requires fundamentally different intelligence and law enforcement approaches from monitoring dirty money that is being laundered.

Global Trends 2040

A More Contested World

Cosimo Reports "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -*Global Trends 2040 (2021)* *Global Trends 2040-A More Contested World (2021)*, released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Democracy in America

The Story of Modern Europe

Psychology of Terrorism

In compiling this annotated bibliography on the psychology of terrorism, the author has defined terrorism as "acts of violence intentionally perpetrated on civilian noncombatants with the goal of furthering some ideological, religious or political objective." The principal focus is on nonstate actors. The task was to identify and analyze the scientific and professional social science literature pertaining to the psychological and/or behavioral dimensions of terrorist behavior (not on victimization or effects). The objectives were to explore what questions pertaining to terrorist groups and behavior had been asked by social science researchers; to identify the main findings from that research; and attempt to distill and summarize them within a framework of operationally relevant questions. To identify the relevant social science literature, the author began by searching a series of major academic databases using a systematic, iterative keyword strategy, mapping, where possible, onto existing subject headings. The focus was on locating professional social science literature published in major books or in peer-reviewed journals. Searches were conducted of the following databases October 2003: Sociofile/Sociological Abstracts, Criminal Justice Abstracts (CJ Abstracts), Criminal Justice Periodical Index (CJPI), National Criminal Justice Reference Service Abstracts (NCJRS), PsycInfo, Medline, and Public Affairs Information Service (PAIS). Three types of annotations were provided for works in this bibliography: Author's Abstract -- this is the abstract of the work as provided (and often published) by the author; Editor's Annotation -- this is an annotation written by the editor of this bibliography; and Key Quote Summary -- this is an annotation composed of "key quotes" from the original work, edited to provide a cogent overview of its main points.
