Anesthesiology Applied Exam Board Review

Medical Specialty Board Review Anesthesiology Applied Exam Board Review is a comprehensive guide for preparing for the American Board of Anesthesiology Applied Exam, which includes the traditional Standardized Oral Examination (SOE) and a new Objective Structured Clinical Examination (OSCE) component. This guide is also a useful review for residents preparing for in-training examinations in Anesthesiology. The text contains over 40 long and short exam stems, with questions regarding the preoperative, intraoperative, and postoperative care. Included with the book is access to the questions online for an e-learning experience. Topics chosen are based on ABA-released exams and student feedback regarding what are the highest yielding topics for the oral board exam. Each chapter includes not just questions and answers based on ABA-provided grading criteria, but also an emphasis on how to formulate answers and break down complex topics and processes into simpler formats.

Certification and Core Review for Neonatal Intensive Care Nursing - E-Book

Elsevier Health Sciences The only exam review for the two leading neonatal critical-care nursing certification examinations, Certification and Core Review for Neonatal Intensive Care Nursing, 4th Edition prepares you for your exam with realistic questions and test simulation. Based on the blueprints of the AACN's CCRN-Neonatal exam and the NCC's Neonatal Intensive Care Nursing (RNC-NIC) exam, review questions cover the information in Core Curriculum for Neonatal Intensive Care Nursing, 3rd Edition, and reflect essential knowledge, the latest evidence, and best practices. A total of 600 questions and answers with rationales are provided. Developed by the AACN, AWHONN, and NANN, this powerful review tool offers excellent preparation for your certification exam! This title includes additional digital media when purchased in print format. For this digital book edition, media content is not included. Endorsed by the three most authoritative associations in neonatal intensive care nursing: the American Association of Critical-Care Nurses (AACN); the Association of Women's Health, Obstetric, and Neonatal Nurses (AWHONN); and the National Association of Neonatal Nurses (NANN). Answers are provided for each question, accompanied by rationales and references, to enhance your understanding of the material. Realistic exam practice is offered through questions that mirror the certification exam content, the multiple-choice question format, and the distribution of content. Updated questions reflect the information in Core Curriculum for Neonatal Intensive Care Nursing, 4th Edition, and the latest test plans by both AACN and NCC. Complete remediation includes rationales for both correct and incorrect answers. A compact, portable size makes the book easier to study anytime, anywhere.

Pearls of Wisdom : Conforms to the American Heart Association Guidelines 2000

Boston Medical Pub Incorporated The purpose of this book is to encourage the learning and retention of the material presented in a PALS Course. The material has been updated according to the 2000 Guidelines. The authors have worked through the material paragraph by paragraph, creating questions about the information presented in that text. Whereas the primary purpose of the other volumes in the 'Pearls of Wisdom' series is to help you study for a standardised test, the primary purpose of this book is to help you to learn and review information by utilising the Socratic method instead of reading a text. It will help you study and review information critical to improving the emergency care received by our children. With this goal in mind, the text is written in question/answer format. The student receives immediate gratification with a correct answer. Misleading or confusing multiple-choice 'foils' are not provided, thereby eliminating the risk of assimilating erroneous information.

Principles of EMS Systems

Jones & Bartlett Learning Principles of EMS Systems, Third Edition provides EMS personnel with an overview of the organization and operation of an EMS system, both on a daily basis and in response to large-scale events, including terrorist and weapons of mass destruction incidents. This book explores the role the medical director plays in EMS and discusses the importance of medical oversight and accountability. By focusing on the collaborative interaction of EMS, police, and fire professionals, along with emergency physicians, emergency departments, and hospitals, this resource provides a framework for how these different groups must work together to ensure the emergency medicine/health care safety net does not fail when it is needed the most.
