### Santro

### The Car That Built a Company

Hachette UK 'There's no business like the car business!' Within months of its launch in late 1998, with every well-known global automobile brand jockeying for a foothold in a small-car market almost monopolized by Maruti Udyog Limited, Hyundai Motor India's debut production, the Santro, emerged as a force to reckon with. The first car to be conceptualized and designed for - and then developed and manufactured in - India, the 'Sunshine Car' has, over a period of sixteen years, set the record for the quickest small car brand to go from zero to one million units sold. It achieved profitability for Hyundai at an unprecedented speed and made an impressive global impact as a made-in-India automobile in markets as diverse as Algeria and Zimbabwe, Western Europe and North America. In Santro: The Car That Built a Company, BVR Subbu, who spearheaded much of the Santro's success, reveals the hitherto untold story of how this small car made such a big impact. Vivid anecdotes detail the challenges of introducing a new product in a new market, the canny

business strategies that were employed to get the better of rival brands, the unforgettable marketing campaigns that made all the difference - and the thrills of the high-stakes power battles and everyday drama that characterize corporate India. By turns revelatory, insightful and delightfully engaging, this is a business story with a difference about a car like no other.

## Lemon-Aid Used Cars and Trucks 2012-2013

Dundurn Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

## The Business of Holidays

Holiday celebrations in the United States are a major force driving the nation's approximately \$3 trillion retail economy. The commercial culture of holidays extends from the traditional -- decorations, costumes, and cards -- to the immaterial and ephemeral -- phone calls, airline tickets, and department store bills. Simultaneously colorful presentation and careful analysis, *The Business of Holidays* interprets holiday commerce and design, corporate culture, and tradition (invented and inherited). This volume consists of more than thirty-five essays arranged according to the calendar year, from New Year's Day and Martin Luther King, Jr. Day to Christmas, Hanukkah, and Kwanzaa, and explores longstanding holiday images, such as Santa Claus and shamrocks, as well as quirkier aspects of visual culture. The rites that surround these special days have been adopted, or even invented by, the pervasive marketing that surrounds them to such an extent that the celebration of holidays and the business of holidays have become inseparable.
