CRITICAL CALL - PROCEEDINGS OF THE 2015 EUROCALL CONFERENCE, PADOVA, ITALY

Research-publishing.net The theme of the conference this year was Critical CALL, drawing inspiration from the work carried out in the broader field of Critical Applied Linguistics. The term 'critical' has many possible interpretations, and as Pennycook (2001) outlines, has many concerns. It was from these that we decided on the conference theme, in particular the notion that we should question the assumptions that lie at the basis of our praxis, ideas that have become 'naturalized' and are not called into question. Over 200 presentations were delivered in 68 different sessions, both in English and Italian, on topics related specifically to the theme and also more general CALL topics. 94 of these were submitted as extended papers and appear in this volume of proceedings.

Sherlock Holmes and his companion Dr. Watson investigate the case. This was the first appearance of Holmes since his apparent death in "The Final Problem", and the success of The Hound of the Baskervilles led to the character's eventual revival

DYNAMIC HEDGING

MANAGING VANILLA AND EXOTIC OPTIONS

John Wiley & Sons Destined to become a market classic, *Dynamic Hedging* is the only practical reference in exotic options hedging and arbitrage for professional traders and money managers. Watch the professionals. From central banks to brokerages to multinationals, institutional investors are flocking to a new generation of exotic and complex options contracts and derivatives. But the promise of ever larger profits also creates the potential for catastrophic trading losses. Written by a leading options trader and derivatives risk advisor to global banks and exchanges, this book provides a practical, real-world methodology for monitoring and managing all the risks associated with portfolio management. Nassim Nicholas Taleb is the founder of Empirica Capital LLC, a hedge fund operator, and a fellow at the Courant Institute of Mathematical Sciences of New York University. SPATIAL AND TEMPORAL DIMENSIONS FOR LEGAL HISTORY

RESEARCH EXPERIENCES AND ITINERARIES

Max Planck Institute for European Legal History <http://dx.doi.org/10.12946/gplh6><http://www.epubli.de/shop/buch/53894>"The spatiotemporal conjunction is a fundamental aspect of the juridical reflection on the historicity of law. Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry. Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component. This analytical approach makes a contribution by providing some suggestions for the employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical

attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."

THE ARCHITECTURE OF HAPPINESS

Penguin UK The Architecture of Happiness is Alain de Botton's exploration of the hidden links between buildings and our well being. Bestselling author Alain de Botton has written about love, travel, status and how philosophy can console us. Now he turns his attention to one of our most intense but often hidden love affairs: with our houses and their furnishings. He asks: What makes a house truly beautiful? Why are many new houses so ugly? Why do we argue so bitterly about sofas and pictures - and can differences of taste ever be satisfactorily resolved? Will minimalism make us happier than ornaments? To answer these questions and many more, de Botton looks at buildings across the world, from medieval wooden huts to modern skyscrapers; he examines sofas and cathedrals, tea sets and office complexes, and teases out a host of often surprising philosophical insights. The Architecture of Happiness will take you on a beguiling tour through the history and psychology of architecture and interior design, and will forever alter your relationship with buildings. It will change the way you look at your current home - and help you make the right decisions about your next one. 'Engaging and intelligent . . . full of splendid ideas,

happily and beautifully expressed'Independent Alain de Botton was born in 1969 and is the author of non-fiction essays on themes ranging from love and travel to architecture and philosophy. His bestselling books include *Essays in Love*; *The Romantic Movement*; *Kiss and Tell*; *Status Anxiety*; *How Proust Can Change Your Life*; *The Pleasures and Sorrows of Work*; *The Art of Travel*; *The Architecture of Happiness* and *Religion for Atheists*.
