"A bold beginning to a series that explores gender, empathy, and the frozen north"-Kirkus "A riveting saga"—Midwest Book Review Women rule in Zem'. Krasnoslava Tsarinovna is the second-most powerful woman in Zem'. Unfortunately, she doesn't have a lot of power. Krasnoslava (Slava to her friends, if she had any) is the younger sister to the Empress of Zem'. She lives in luxury in her sister's kremlin, eats at her sister's rich feasts, and sits on her sister's council. She has everything any woman could want—except respect. Instead, she is the bearer of her family's double-edged gifts of clairvoyance and empathy. Knowing what other people feel about you is difficult at the best of times. In the Imperial court, it's torture. When an adventurer comes asking for Imperial support to explore the Midnight Land, the far North where the sun never rises all winter, Slava is so desperate to leave the kremlin that she asks to come with her. To her surprise, her request is granted. Slava's journey is supposed to take her to the very edge of Zem' and the Known World, and maybe help her learn more about her gifts. But as she travels North, she finds herself drawn into the center of a plot that could bring down her family. Slava would do anything to protect her family—except what the gods call upon her to do. Everyone has always considered Slava a coward. Will she learn to become a hero in order to save the people she loves?

## After Patrick Henry

## A Second American Revolution

Black Rose Books Ltd. Neal Herrick demonstrates, in a lucid manner, that government corruption is the predominant problem facing society today. Although bribery and influence peddling are the most visible aspect of this corruption, they are not, in Herrick's analysis, the most serious. For Herrick, the more serious aspect of government corruption is the laws that bribery and influence peddling produce—laws that favour the corporations—resulting in, what he calls, a kind of delusional corruption that leads, for example, to unjust and unnecessary wars. Tracing both forms of corruption back through American history, Herrick gives a brief account of governmental descent into lawlessness, identifies the constitutional flaw that led to this lawlessness, and discusses some of the issues that must be considered in devising remedies. ## Reading Roman Comedy

## Poetics and Playfulness in Plautus and Terence

Cambridge University Press For many years the domain of specialists in early Latin, in complex metres, and in the reconstruction of texts, Roman comedy is now established in the mainstream of Classical literary criticism. Where most books stress the original performance as the primary location for the encountering of the plays, this book finds the locus of meaning and appreciation in the activity of a reader, albeit one whose manner of reading necessarily involves the imaginative reconstruction of performance. The texts are treated, and celebrated, as literary devices, with programmatic beginnings, middles, ends, and intertexts. All the extant plays of Plautus and Terence have at least a bit part in this book, which seeks to expose the authors' fabulous artificiality and artifice, while playing along with their differing but interrelated poses of generic humility.

## Blacks and Whites in Christian America

## How Racial Discrimination Shapes Religious Convictions

NYU Press Conventional wisdom holds that Christians, as members of a “universal” religion, all believe more or less the same things when it comes to their faith. Yet black and white Christians differ in significant ways, from their frequency of praying or attending services to whether they regularly read the Bible or believe in Heaven or Hell. In this engaging and accessible sociological study of white and black Christian beliefs, Jason E. Shelton and Michael O. Emerson push beyond establishing that there are racial differences in belief and practice among members of American Protestantism to explore why those differences exist. Drawing on the most comprehensive and systematic empirical analysis of African American religious actions and beliefs to date, they delineate five building blocks of black Protestant faith which have emerged from the particular dynamics of American race relations. Shelton and Emerson find that America's history of racial oppression has had a deep and fundamental effect on the religious beliefs and practices of blacks and whites across America.

Adam's Dream

Is Everything We Think, Believe, and Perceive Real—Or Is It All Imaginary?

BalboaPress According to the Holy Scriptures, in the beginning, Adam felt very alone and deeply longed to have a partner like him. God therefore caused him to fall into a deep sleep, took one of his ribs, and fashioned woman from it. Notably, there is no mention in the Holy Bible that he later awoke. In Adams Dream, author Joseph Romanella presents a strong and very compelling argument that Adam, as the universal man (or mind), is still sound asleep and has progressed to dream of humankind as his direct off spring. He believes that with this new revolutionary knowledge gained through Divine Grace, the self-centered mentalities of human beings along with their narrow points of view concerning life and the outside world will also have to undergo corresponding changes. In fact, by comprehending that we are currently living inside of a very realistic fantasy as imaginary personal figures, we are immediately placed in the proper perspective to significantly change the way that we think, feel, perceive, will and behave. As a result, with this Holy Knowledge we are in a position to attract many good things into our earthly lives, not only to prosper us spiritually, but also in every other way. Moreover, with this new light a clearer awareness and a deeper acceptance of Gods Intimate Love for each one of us, automatically arises. And, contrary to popular religious beliefs, we also come to the realization that by faith all of our sins, past, present and future have already been forgiven and we have been empowered to enter into the Glorious Freedom, Rest, Life, Joy, Wisdom, Righteousness and Eternal Embrace of our Heavenly Father, without the need for any good works or sacrifices on our part.

## How Much Is Enough?

### Hungering for God in an Affluent Culture

Baker Books In a world filled with both prosperity and poverty, how can Christians handle their finances in a way that honors God? In *How Much Is Enough?*, Arthur Simon takes an uncompromising look at America's wealth, reflecting what dominates the hearts and motivations of its people. He diagnoses Western civilization as sick with "affluenza," or runaway materialism, and shows readers how to reject the disease and set new priorities. Churches, social ministry groups, and thoughtful readers will be enlightened by Simon's grasp of Western affluence against the backdrop of a world where 800 million people are chronically starving. Readers will gain a clearer understanding of how money becomes an object of worship when passion for material things is stronger than compassion for the poor. Simon's life-changing book also reveals how affluenza takes control of people's lives and goals. Without discounting prosperity as a blessing, *How Much Is Enough?* proposes new pathways to living as disciples of Jesus. It suggests a myriad of solutions for taming materialism and sheds light on the profound reality that possessions may capture our hearts, but they are unable to nourish our souls.

## 3-d Negotiation

### Powerful Tools to Change the Game in Your Most Important Deals

Harvard Business Press When discussing being stuck in a "win-win vs. win-lose" debate, most negotiation books focus on face-to-face tactics. Yet, table tactics are only the "first dimension" of David A. Lax and James K. Sebenius' pathbreaking 3-D Negotiation (TM) approach, developed from their decades of doing deals and analyzing great dealmakers. Moves in their "second dimension"—deal design—systematically unlock economic and noneconomic value by creatively structuring agreements. But what sets the 3-D approach apart is its "third dimension": setup. Before showing up at a bargaining session, 3-D Negotiators ensure that the right parties have been approached, in the right sequence, to address the right interests, under the right expectations, and facing the right consequences of walking away if there is no deal. This new arsenal of moves away from the table often has the greatest impact on the negotiated outcome. Packed with practical steps and cases, 3-D Negotiation demonstrates how superior setup moves plus insightful deal designs can enable you to reach remarkable agreements at the table, unattainable by standard tactics.

She shares the stories of twenty-five women who have known this deep anguish, and she helps bridge the gap in the healing journey so many other materials leave out. She comforts readers and refreshingly points hurt women toward the one who calms the raging seas. Allowing God to meet your greatest needs is a long and learned process, but he promises to help you every step of the way. Questions and daily readings are suitable for both individuals and small groups.

## States of Emergency in Liberal Democracies

Cambridge University Press In an emergency, statesmen concentrate power and suspend citizens' rights. These emergency powers are ubiquitous in the crisis government of liberal democracies, but their nature and justification is poorly understood. Based on a pluralist conception of political ethics and political power, this book shows how we can avoid the dangers and confusions inherent in the norm/exception approach that dominates both historical and contemporary debate. The book shows how liberal values need never - indeed must never - be suspended, even in times of urgency. Only then can accountability remain a live possibility. But at the same time, emergency powers can sometimes be justified with reference to extra-liberal norms that also operate in times of normalcy. By emphasizing the continuity between times of normalcy and emergency, the book illuminates the norms of crisis government, broadening our understanding of liberal democratic government and of political ethics in the process.
