Infant Baptism and the Covenant of Grace

An Appraisal of the Argument that as Infants Were Once Circumcised, So They Should Now be Baptized

Wm. B. Eerdmans Publishing *This is a print on demand book and is therefore non- returnable. Paul Jewett, author of the creative and highly provocative book Man As Male and Female, here turns his critical attention to the practice of infant baptism. Jewett does not accept the traditional "covenant" argument for baptizing infants, and this book explains why he believes this argument fails. Infant baptism is not a subject which can be isolated. For, as Jewett would have his readers understand, one's view on this issue is integrally related to one's view of the sacraments in general and thereby to the whole doctrine of the church and salvation. Thus it is understandable that what appears to be a minor theological question has had such divisive effects on the church. A discussion of the historical source of infant baptism begins Jewett's critique and introduces such issues as the distinction between infants and children, the silence of certain early church fathers on the subject, infant communion, and catechetical instruction. The second and major portion of this book examines the theological issue, focusing specifically on the covenant argument, which suggests that baptism replaces circumcision as the sign of the covenant and thereby is given to infants. This argument, Jewett claims, fails to take into account the historical character of revelation, and contains certain contradictions. Jewett concludes with a creative defense of believer baptism, one which is theologically responsible and which recognizes the profound truths of covenant theology.*

Puritan Publications *This work by Blake is a second treatment on covenant theology that was widely circulated during his time outside of his magnum opus work "The Covenant of God." This book is a combination of two treatises he wrote, one concerning the covenant holiness of infants under the ordinance of baptism, and a second treatise covering answers to questions surrounding whether there is sufficient ground in scripture to warrant the conscience of a Christian to present his infants to the sacrament of baptism. Both are excellent Scriptural treatments of the subject, with exegesis surrounding passages such as Galatians 2:15, Genesis 17, 1 Corinthians 7, and Ephesians 4:1-3. Covenant of Grace Renewed A Vision of the Eucharist in the Seventeenth Century The Promise of Baptism An Introduction to Baptism in Scripture and the Reformed Tradition

Wm. B. Eerdmans Publishing *Christians who otherwise love each other and work together on shared projects and causes nonetheless often disagree on the subject of baptism. Should infants be baptized, or is baptism for believers only? What exactly does baptism mean? What happens, if anything, when someone is baptized? Which is better -- sprinkling or immersion? These disagreements are disheartening to some and confusing to many. The sacrament of baptism from a Reformed perspective is clearly and thoughtfully outlined in this useful book. James Brownson explains the scriptural basis, the theological underpinnings, and the practical implications of this particular element of the faith. Organized into thirty brief, tightly focused chapters -- each of which centers on a key question -- and enhanced by thoughtful discussion questions, The Promise of Baptism will be an important resource for pastors, students, and laypersons seeking to better understand this sacrament that lies at the heart of the church's life. A sampling*

of key questions addressed: What is a sacrament, and how does it differ from an "ordinance"? What's the relationship between baptism and being "born again"? How do the sacraments bring God's grace to us? Can someone be "saved" without being baptized? Can someone be baptized without being saved? Does baptism take the place of circumcision as the mark of the new covenant? What is "confirmation" or "profession of faith," and what is its relationship to baptism? What happens after baptism?

On Baptism Against the Donatists

Aeterna Press This treatise was written about 400 A.D. Concerning it Aug. in *Retract.* Book II. c. xviii., says: I have written seven books on Baptism against the Donatists, who strive to defend themselves by the authority of the most blessed bishop and martyr Cyprian; in which I show that nothing is so effectual for the refutation of the Donatists, and for shutting their mouths directly from upholding their schism against the Catholic Church, as the letters and act of Cyprian. Baptism

Historical, Theological, and Pastoral Perspectives

Wipf and Stock Publishers In this book, Gordon Heath and James Dvorak bring together three traditions that are not often brought together under one roof: Orthodox, Catholic, and Protestant. Authors from a number of Protestant traditions, as well as one from Orthodoxy and one from Catholicism, have contributed to a volume that provides a grander vision of the diversity of the church as well as a deeper sense of the differences that divide and the similarities that unite. This book provides a much-needed and helpful forum for a variety of Christian positions to be presented and defended so that Christians can at least operate out of understanding rather than ignorance. The authors also hope that such understanding will nudge people closer together as baptized followers of Jesus Christ. The gracious spirit of each contributor to this volume indicates that it is possible. All contributors in this volume write about their own tradition, and a number write not just as academics but also as ordained leaders in their churches. The insider's perspective that each author brings allows passionate presentations of each perspective but also committed defenses of the same.

The Doctrine and Practice of Infant Baptism

Puritan Publications In this masterful work, Brinsley demonstrates both the doctrinal and exegetical nature of baptism, and the practical side of baptism. He says, "They to whom belongs the kingdom of God, who are subjects, and members of the kingdom of grace, and heirs of the kingdom of glory, they have right to this seal of the covenant, by which this their interest may be confirmed and sealed up to them." Where in this meticulous statement do we find the phrase "baptism" or "infant baptism" or for that matter, any hint of baptism of any kind? This exquisite statement is exactly the same idea that covenant theologians have, for centuries, biblically demonstrated and expounded upon in order to confirm to the people of Christ's church the nature of the covenant of Christ, as well as polemically deter those who would bar young children from the sacrament of baptism. Yet, this doctrinal statement simply gives the reader all the ammunition needed to defend the Gospel of the covenant of Christ. It does this against those who would twist or change such a string of covenant pearls found in the bible which could never be unstrung. It is the biblical substance which ushers in a thorough Reformation that only full covenant theologians, who are the only thorough Reformers, could accomplish for a full exposition of the Bible. In reality, infant baptism ought to be the last five minutes of a five day conversation of the covenant of God. That is the substance of this work, and the manner in which Brinsley treats God's covenant and infant inclusion in the Covenant of Grace. It would be spiritually beneficial for the church to consider such a statement in the full orb'd account of God's covenant from Genesis to Revelation. This work is not a scan or facsimile, has been carefully transcribed by hand being made easy to read in modern English, and has an active table of contents for electronic versions.

The Covenant of Grace Opened

Puritan Publications *In this powerful treatise on the covenant of grace, Hooker teaches from Genesis 17:23, "And Abraham took Ishmael his son, and all that were born in his house...and circumcised the flesh of their foreskin...as God had said unto him." He covers, 1. What the Covenant of Grace is, 2. What the seals of the covenant are, and 3. Who the parties and subjects are fit to receive these seals. From all these particulars he shows how infant baptism is fully proved and vindicated. His explanation is poignant, clear, practical and eminently biblical. He shows what the covenant of grace is, the spiritual efficacy of the covenant, who are those capable of being in covenant with God, the operation of the spirit, the importance of federal holiness, lawful administration of the covenant seals, and he even takes time to refute Anabaptism. (His section on federal holiness is worth the cost of this volume alone.) This is not a scan or facsimile, has been updated in modern English for easy reading and has an active table of contents for electronic versions.*

The Mystery of Baptism in the Anglican Tradition

Church Publishing, Inc. *As the Church continues to try to clarify the meaning of baptism, well-known liturgical scholar Kenneth Stevenson provides important insights into the historical issues with which we still wrestle. Is baptism a private or a public act? Is the symbolism of the rite still appropriate? Does the language of the baptismal service remain meaningful in a secular age? In order to answer these and other pressing questions, we must understand the thinking of those who have come before us. Stevenson does just that by looking at the writings of the 17th century Anglican divines such as Lancelot Andrewes, George Herbert, Richard Hooker, Richard Baxter, Jeremy Taylor and others, all of whom have a vital and prophetic significance for our understanding and practice of baptism today. Dr. Kenneth Stevenson is the Bishop of Portsmouth and a leading Anglican scholar. A member of the Doctrine Commission of the Church of England, he is the author of numerous books, including Covenant of Grace Renewed and The Mystery of the Eucharist in the Anglican Tradition, which is available from Morehouse Publishing, and Abba, Father.*

Pietism and the Sacraments

The Life and Theology of August Hermann Francke

Penn State Press Considered by many to be one of the most influential German Pietists, August Hermann Francke lived during a moment when an emphasis on conversion was beginning to produce small shifts in how the sacraments were defined—a harbinger of later, more dramatic changes to come in evangelical theology. In this book, Peter James Yoder uses Francke and his theology as a case study for the ecclesiological stirrings that led to the rise of evangelicalism and global Protestantism. Engaging extensively with Francke's manuscript sermons and writings, Yoder approaches Francke's life and religious thought through his theology of the sacraments. In doing so, Yoder delivers key insights into the structure of Francke's Pietist thought, providing a rich depiction of his conversion-driven theology and how it shaped his views of the sacraments and the church. The first in-depth study of Francke's theology written for an English-speaking audience, this book supports recent scholarship in English that not only challenges long-held assumptions about Pietism but also argues for the role of Pietism's influence on the changing religious landscape of the eighteenth century. Through his examination of Francke's theology of the sacraments, Yoder presents a fresh view into the eighteenth-century ecclesiological developments that caused a rupture with the dogmas of the Reformation. Original and vital, this study recognizes Francke's importance to the history of Pietism in Germany and beyond. It will become the standard reference on Francke for American audiences and will influence scholarship on Lutheranism, Pietism, early modern German studies, and eighteenth-century history and religion.

Understanding Four Views on Baptism

Zondervan What is the significance of water baptism? Who should be baptized? Is infant baptism scriptural? Which is the proper baptismal mode: sprinkling, pouring, or immersion? Should people be rebaptized if they join a church that teaches a different form of baptism? Should baptism be required for church membership? These and other questions are explored in this thought-provoking book. Four historic views on baptism are considered in depth: • Baptism of the professing regenerate by immersion (Baptist) •

Believers' baptism on the occasion of regeneration by immersion (Christian Churches/Churches of Christ)• Infant baptism by sprinkling as a regenerative act (Lutheran)• Infant baptism of children of the covenant (Reformed)Each view is presented by its proponent, then critiqued and defended in dialogue with the book's other contributors. Here is an ideal setting in which you can consider the strengths and weaknesses of each stance and arrive at your own informed conclusion.
