Realising Your Talents and Skills and Becoming an Entrepreneur

Discover Who You Are; Watch Yo A wise man once said and I quote, "the two most important days in a man's life are; the day he was born and the day he discovers why" The former happens to be easy for everyone, but knowing the latter is where the real problem lies. These are some of the questions on the heart of most individuals out there.- What's my purpose on earth?- How can I live a fulfilled and successful life?- How can I be able to make a positive impact; in my life, in the life of others and the global community at large? Also, answers to these questions seem to be far away from us, however, this little piece has the right answers to the aforementioned questions and lots more. It guides one on how to live a fulfilled, successful and life of positive impact, in essence, it teaches;- How to discover, manage and utilize your talent.- How to be an employer of labor instead of being an employee of labor for life, by embracing entrepreneurship.- How to make proper use of education and succeed in any field.- How to grow yourself into the person you wish to be, through personal development.- How to manage failure and use it to your own advantage. This book was never written for a particular group of people, be you a child, a youth or a parent, it's never too late to discover and nurture yourself into who you wish to become. Finally, you didn't get this book to read about how it was put up together, rather you're looking for answers, solutions and the way forward, so let's go.

The Quote Book

Let Proverbial Sayings Multiply Your Mind Power Easily

Independently Published Have you ever read or heard a wise saying and thought, "That's cool" and soon forgot it? Tested and tried by time and experience, priceless word gems were handed down the generations. This book explains their meaning and makes them usable in your daily life. Learn how to profit from proverbs, save with sayings, and qualify with quotes. Wise sayings are as important to the mind as mother's milk is to the growing child. As you think so you are. William Penn, the founder of Pennsylvania, knew their value. He said: "The Wisdom of Nations lies in their Proverbs... collect and learn them". Sir Winston Churchill, former British Prime Minister, war leader, writer, painter, historian and much more, urged people of limited education to get a good stock of proverbs. Great men (backed by great women) who guided their country's destiny knew the value of memorable quotes. "Nothing in this world can take the place of persistence. Talent will not; nothing is more common than unsuccessful people with talent. Genius will not; unrewarded genius is almost a proverb. Education will not; the world is full of educated derelicts. Persistence and determination alone are omnipotent. The slogan "press on" has solved and always will solve the problems of the human race." Calvin Coolidge. 30th President of the United States (1923-1929)

Stop Walking in Circles

Achievement Solutions, LLC Walking in Circles is the perfect metaphor for what happens to an individual or an organization that does not have a plan for getting them from where they are now to where they want to be. A five-year study from the Institute for Biological Cybernetics in Germany proved that absent some type of map or compass, people who are lost actually do walk in circular patterns. It's also true that individuals or organizations who do not have a plan for improving performance and productivity will, year after year, end up right back where they started.
