Act Your Age!

A Cultural Construction of Adolescence

Routledge Are our current ways of talking about "the problem of adolescence" really that different than those of past generations? For the past decade, *Act Your Age!* has provided a provocative and now classic analysis of the accepted ways of viewing teens. By employing a groundbreaking "history of the present" methodology that resists traditional chronology, author Nancy Lesko analyzes both historical and present social and political factors that produce the presumed "natural adolescent." This resulting seminal work in the field of youth study forces readers to rethink the dominant interpretations on the social construction of adolescence from the 19th century through the present day. This new edition is updated throughout and includes a full new chapter on 1950s-era assumptions about adolescence and the corresponding connections to teens today. As in all chapters, Lesko provides careful examination of the concerns of nationalism, sexuality, and social order in terms of how they are projected onto the definitions of adolescents in the media, in schools, and in the home.

Basketball Sports Medicine and Science

Springer Nature This book is designed as a comprehensive educational resource not only for basketball medical caregivers and scientists but for all basketball personnel. Written by a multidisciplinary team of leading experts in their fields, it provides information and guidance on injury prevention, injury management, and rehabilitation for physicians, physical therapists, athletic trainers, rehabilitation specialists, conditioning trainers, and coaches. All commonly encountered injuries and a variety of situations and scenarios specific to basketball are covered with the aid of more than 200 color photos and illustrations. *Basketball Sports Medicine and Science* is published in collaboration with ESSKA and will represent a superb, comprehensive educational resource. It is further hoped that the book will serve as a link between the different disciplines and modalities involved in basketball care, creating a common language and improving communication within the team staff and environment.

Resume Writing Without Paid Work Experience

Trafford Publishing What others are saying about this book: ADULT PROGRAMS ADULT BASIC AND LITERACY EDUCATION PROGRAMS: "I like it because it is such an engaging, upbeat and enjoyable book that I had trouble putting it down. I especially like the way that it gives concrete examples to show my students how to meet the qualifications of a particular job. Otherwise they would probably never think that they had a shot at the position. Volunteers can use it even if they have no formal training in adult education because everything is clearly spelled out and the forms are spacious." Ñ Judith Aaronson, founder of the Pittsburgh Literacy Council WELFARE TO WORK, WIA PROGRAMS: "This is an invaluable tool for a population that wants to be productive, but doesn't know how to present themselves in a light that will ensure employment. And for those with work histories it lets them to more easily identify the valuable transferable skills that they possess." Ñ Dr. Georgine Scarpino, former director of JTPA/WIA and Welfare to Work programs PROGRAMS FOR PERSONS WITH DISABILITIES: "In providing employment support services to persons with disabilities, oftentimes there is a lack of work history or gaps in employment. This book is a tool to develop a resume that draws from life experience and non-paid work experiences. Just working through the suggested activities can be a confidence builder for individuals seeking employment." Ñ Diane Celidonia, Supervisor, Employment Services

Improving Practice and Performance in Basketball

MDPI Despite being one of the most popular sports worldwide, basketball has received limited research attention compared to other team sports. Establishing a strong evidence base with high-quality and impactful research is essential in enhancing decision-making processes to optimize player performance for basketball professionals. Consequently, the book entitled *Improving Performance and Practice in Basketball* provides a collection of novel research studies to increase the available evidence on various topics with strong translation to practice in basketball. The book includes work by 40 researchers from 16 institutions or professional organizations from 9 countries. In keeping with notable topics in basketball research, the book contains 2 reviews focused on monitoring strategies to detect player fatigue and considerations for travel in National Basketball Association players. In addition, 8 applied studies are also included in the book, focused on workload monitoring, game-related statistics, and the measurement of physical and skill attributes in basketball players. This book also has a strong focus on increasing the evidence available for female basketball players, who have traditionally been under-represented in the literature. The outcomes generated from this book should provide new insights to inform practice in many areas for professionals working in various roles with basketball teams.
