RADAR INSTRUCTION MANUAL

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference

handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. Robert J. Blackwell Assistant Secretary for Maritime Affairs

UNSTOPPABLE

Unstoppable is a word defined as "difficult or impossible to preclude or stop." As a human quality, it is something that we associate with people such as sports superstars, those who do whatever it takes to inspire others and lead teams to the greatest of victories. Sometimes, an idea or person can become unstoppable. Unstoppable, like Charles

Lindbergh crossing the Atlantic in a solo flight when no one had thought it was possible, or track star Roger Bannister breaking the four-minute mile barrier. Not everyone can be an explorer or a great athlete, but anyone can be unstoppable in their chosen endeavors in life. If you are willing to possess an unwavering determination to succeed and a consistent willingness to learn and evolve, you can become unstoppable and triumph too. This book is about a personal struggle, one in which the author awoke from a coma after a terrible accident and faced a life of permanent paralysis. A long battle of driven determination resulted in Yanni Raz regaining his health and becoming a self-made millionaire after migrating from his native Israel to the United States. Through careers as a musician, a Starbucks barista, a salesman, a real estate whiz, a professional poker player and a hard money lender, Yanni learned reliable principles and the skills necessary for success. Unstoppable covers many topics including controlling your life, making the best decisions, creating new opportunities, properly assessing signals, expertly negotiating, and succeeding by storytelling across the media landscape. You'll learn about integrity in business, asset diversification, and many other life tips that thousands of people learn from Yanni on a daily basis. It is time to become fearless and lead a powerful life. With Yanni's new book Unstoppable, you can do just that.

POLICE & SOCIETY

Oxford University Press, USA The Third Edition of Police & Society offers a comprehensive introduction to policing in the United States. Author Roy Roberg is joined by prominent policing scholars Kenneth Novak and Gary Cordner. Their thoroughly revised text is both descriptive and analytical in nature--covering the process of policing, police behavior, organization, operations, and historical perspectives. To adequately explain the complex nature of police operations in a democracy, the authors have integrated the most important theoretical foundations, research findings, and contemporary practices in a comprehensible, yet analytical, manner. Contemporary issues and future prospects of policing are fully addressed. The text features an emphasis on the relationship between the police and the community--as well as how this relationship has evolved over time. The impact of this evolution on current police practices, especially with respect to community policing and policing in the post-9/11 era, is explored. The new edition has been substantially updated and revised, with four new or significantly revised chapters: "Community Policing," "Legal Issues," "Higher Education," and "Contemporary and Emerging Issues." Importantly, new "Voices From the Field" boxes have been added to each chapter.
