Strategic Planning Decisions in the High Tech Industry Springer Science & Business Media *The scale and complexity of research and practices of open innovation mandate a correspondingly sophisticated form of decision making. Strategic Planning Decisions brings together a number of tools that ease the decision process in technology companies, providing both conceptual frameworks and practical applications. Innovative approaches are presented such as an ontology-based model where all the relevant aspects of a potential technology are interrelated to provide a comprehensive and logically connected data pool for decision makers. Divided into two sections, Strategic Planning Decisions describe both strategic approaches using the decision tools, and tactical approaches. Some of these tools are expanded while some others are embedded in a model that will lay the ground for practical application. These include: bibliometric analysis, ontology, roadmapping, lead user, six sigma, and multi-actor & multi-objective decision making methods Recent research and relevant theory are balanced with up–to–date practical applications and hands–on techniques making Strategic Planning Decisions ideal for engineers who wish to keep up–to–date with current ideas in the field of TM. It also provides workable methods for practising managers from all levels who wish to apply a more rigorous approach in their work and consultants concerned with technology assessment and its management.* **Violence Against Women An EU-wide Survey : Main Results** "*Violence against women undermines women's core fundamental rights such as dignity, access to justice and gender equality. For example, one in three women has experienced physical and/or sexual violence since the age of 15; one in five women has experienced stalking; every second woman has been confronted with one or more forms of sexual harassment. What emerges is a picture of extensive abuse that affects many women's lives but is systematically underreported to the authorities. The scale of violence against women is therefore not reflected by official data. This FRA survey is the first of its kind on violence against women across the 28 Member States of the European Union (EU). It is based on interviews with 42,000 women across the EU, who were asked about their experiences of physical, sexual and psychological violence, including incidents of intimate partner violence ('domestic violence'). The survey also included questions on stalking, sexual harassment, and the role played by new technologies in women's experiences of abuse. In addition, it asked about their experiences of violence in childhood. Based on the detailed findings, FRA suggests courses of action in different areas that are touched by violence against women and go beyond the narrow confines of criminal law, ranging from employment and health to the medium of new technologies.*"--Editor. **INSPIRE Handbook Action for Implementing the Seven Strategies for Ending Violence Against Children** World Health Organization *The INSPIRE handbook: action for implementing the seven strategies for ending violence against children explains in detail how to choose and implement interventions that will fit your needs and context. The seven strategy-specific chapters address the Implementation and enforcement of laws; Norms and values; Safe environments; Parent and caregiver support; Income and economic strengthening; Response and support services; and Education and life skills. The handbook concludes with a summary of INSPIRE?s implementation and impact indicators drawn from the companion INSPIRE indicator guidance and results framework.* **Gender-based Violence** Oxfam *This book brings together some of the most interesting and innovative work being done to tackle gender-based violence in various sectors, world regions, and socio-political contexts. It will be useful to development and humanitarian practitioners, policy makers, and academics, including gender specialists.* **Management in Logistics Networks and Nodes Concepts, Technology and Applications** Erich Schmidt Verlag GmbH & Co KG **Global and Regional Estimates of Violence Against Women Prevalence and Health Effects of Intimate Partner Violence and Non-partner Sexual Violence** World Health Organization "*World Health Organization, London School of Hygiene and Tropical Medicine, South African Medical Research Council*"--Title page. **Violence against Women and Girls Lessons from South Asia** World Bank Publications *This report documents the dynamics of violence against women in South Asia across the life cycle, from early childhood to old age. It explores the different types of violence that women may face throughout their lives, as well as the associated perpetrators (male and female), risk and protective factors for both victims and perpetrators, and interventions to address violence across all life cycle stages. The report also analyzes the societal factors that drive the primarily male — but also female — perpetrators to commit violence against women in the region. For each stage and type of violence, the report critically reviews existing research from Afghanistan, Bangladesh, Bhutan, India, Maldives, Nepal, Pakistan, and Sri Lanka, supplemented by original analysis and select literature from outside the region. Policies and programs that address violence against women and girls are analyzed in order to highlight key actors and promising interventions. Finally, the report identifies critical gaps in research, program evaluations, and interventions in order to provide strategic recommendations for policy makers, civil society, and other stakeholders working to mitigate violence against women in South Asia.* **Translating pain into action: a study of gender-based violence and minority ethnic women in Ireland** The Women's Health Council **Gender based violence in university communities Policy, prevention and educational initiatives** Policy Press *Until recently, higher education in the UK has largely failed to recognise gender-based violence (GBV) on campus, but following the UK government task force set up in 2015, universities are becoming more aware of the issue. And recent cases in the media about the sexualised abuse of power in institutions such as universities, Parliament and Hollywood highlight the prevalence and damaging impact of GBV. In this*

book, academics and practitioners provide the first in-depth overview of research and practice in GBV in universities. They set out the international context of ideologies, politics and institutional structures that underlie responses to GBV in elsewhere in Europe, in the US, and in Australia, and consider the implications of implementing related policy and practice. Presenting examples of innovative British approaches to engagement with the issue, the book also considers UK, EU and UN legislation to give an international perspective, making it of direct use to discussions of 'what works' in preventing GBV. **Tourism and Gender-based Violence Challenging Inequalities** CABI "*This book focuses on the multiple and interconnected manifestations of violence that women/girls encounter in tourism consumption and production while seeking to open the debate on violence against sexual minorities (LGBT) and discussing men/boys as victims and perpetrators of GBV*"-- **Modern Blood Banking & Transfusion Practices** F.A. Davis *Join the generations of students who have embarked on successful careers with a firm foundation in the theory and practice of blood banking and transfusion practices. Denise HarmeningÕs classic text teaches you not only how to perform must-know tests and tasks, but to understand the scientific principles behind them.* **A Guide to Gender-analysis Frameworks** Oxfam *This is a single-volume guide to all the main analytical frameworks for gender-sensitive research and planning. It draws on the experience of trainers and practitioners, and includes step-by-step instructions for using the frameworks.* **Humanitarian Charter and Minimum Standards in Disaster Response Responding to Intimate Partner Violence and Sexual Violence Against Women WHO Clinical and Policy Guidelines** World Health Organization *A health-care provider is likely to be the first professional contact for survivors of intimate partner violence or sexual assault. Evidence suggests that women who have been subjected to violence seek health care more often than non-abused women, even if they do not disclose the associated violence. They also identify health-care providers as the professionals they would most trust with disclosure of abuse. These guidelines are an unprecedented effort to equip healthcare providers with evidence-based guidance as to how to respond to intimate partner violence and sexual violence against women. They also provide advice for policy makers, encouraging better coordination and funding of services, and greater attention to responding to sexual violence and partner violence within training programmes for health care providers. The guidelines are based on systematic reviews of the evidence, and cover: 1. identification and clinical care for intimate partner violence 2. clinical care for sexual assault 3. training relating to intimate partner violence and sexual assault against women 4. policy and programmatic approaches to delivering services 5. mandatory reporting of intimate partner violence. The guidelines aim to raise awareness of violence against women among health-care providers and policy-makers, so that they better understand the need for an appropriate health-sector response. They provide standards that can form the basis for national guidelines, and for integrating these issues into health-care provider education.* **Sexual Harassment and Abuse in Sport International Research and Policy Perspectives** "*This work looks to increase awareness of sexual abuse in sports. Topics covered include the experiences of elite female athletes, sexual harassment of women in athletics as compared to the world of academia, the prevalence of sexual abuse in organized competitive sports in Australia, and defining appropriateness in coachathlete sexual relationships.*" **Ten years in public health 2007-2017 REPORT BY DR MARGARET CHAN DIRECTOR-GENERAL WORLD HEALTH ORGANIZATION** World Health Organization *Ten years in public health 2007-2017 chronicles the evolution of global public health over the decade that Margaret Chan served as Director-General at the World Health Organization. This series of chapters evaluates successes setbacks and enduring challenges during the decade. They show what needs to be done when progress stalls or new threats emerge. The chapters show how WHO technical leadership can get multiple partners working together in tandem under coherent strategies. The importance of country leadership and community engagement is stressed repeatedly throughout the chapters. Together we have made tremendous progress. Health and life expectancy have improved nearly everywhere. Millions of lives have been saved. The number of people dying from malaria and HIV has been cut in half. WHO efforts to stop TB saved 49 million lives since the start of this century. In 2015 the number of child deaths dropped below 6 million for the first time a 50% decrease in annual deaths since 1990. Every day 19 000 fewer children die. We are able to count these numbers because of the culture of measurement and accountability instilled in WHO. These chapters tell a powerful story of global challenges and how they have been overcome. In a world facing considerable uncertainty international health development is a unifying – and uplifting – force for the good of humanity.* **Key success factors and obstacles for FAO energy projects in humanitarian settings An evaluation of FAO's energy-in-emergency portfolio to inform future programming in three Eastern African Countries** Food & Agriculture Org. *Under the Safe Access to Fuel and Energy (SAFE) programme, FAO has contributed to improving resilience and livelihoods for refugees and internally displaced people in 14 countries through four types of activities: clean cooking, forest management, renewable energy in agri-food chains and policy support. This publication evaluates FAO's energy-in-emergency portfolio in Kenya, Uganda and South Sudan to define innovative programming options for efficient energy access within the humanitarian settings of these three countries.* **Violence Against Women The Hidden Health Burden** Washington, D.C. : World Bank **The Gender Based Violence Indicators Study Botswana** African Books Collective *Over two thirds of women in Botswana (67%) have experienced some form of gender violence in their lifetime including partner and non-partner violence. A smaller, but still high, proportion of men admit to perpetrating violence against women. Inspired by the Commonwealth Plan of Action on Gender and Development (2005-2015) and Southern African Development Community (SADC) Protocol on Gender and Development target of halving GBV by 2015, this research project provides the first comprehensive and comparative baseline assessment of the extent, effects and response to GBV in Botswana. A representative sample of 639 women and 590 men across Botswana completed questionnaires in their preferred local language on behaviour and experiences related to GBV. Researchers asked women about their experience of violence perpetrated by men while men were asked about their perpetration of violence against women.* **Feminism and Men** Zed Books Ltd. *Feminism has changed the world; it is radically reshaping women's lives. But what about men? They still hold most of the power in the economy, in government, in religions, in the media and often in the family too. At the same time, many men are questioning traditional views about what it means to be a man. Others resent the gains women have made and want to turn back the clock. Nikki van der Gaag asks the question: how might feminism improve the lives of men as well as women? And is there a place for men in the feminist story?* **National Strategy for the COVID-19 Response and Pandemic Preparedness January 2021** Simon and Schuster *The ultimate guide for anyone wondering how President Joe Biden will respond to the COVID-19 pandemic—all his plans, goals, and executive orders in response to the coronavirus crisis. Shortly after being inaugurated as the 46th President of the United States, Joe Biden and his administration released this 200 page guide detailing his plans to respond to the coronavirus pandemic. The National Strategy for the COVID-19 Response and Pandemic Preparedness breaks*

down seven crucial goals of President Joe Biden's administration with regards to the coronavirus pandemic: 1. Restore trust with the American people. 2. Mount a safe, effective, and comprehensive vaccination campaign. 3. Mitigate spread through expanding masking, testing, data, treatments, health care workforce, and clear public health standards. 4. Immediately expand emergency relief and exercise the Defense Production Act. 5. Safely reopen schools, businesses, and travel while protecting workers. 6. Protect those most at risk and advance equity, including across racial, ethnic and rural/urban lines. 7. Restore U.S. leadership globally and build better preparedness for future threats. Each of these goals are explained and detailed in the book, with evidence about the current circumstances and how we got here, as well as plans and concrete steps to achieve each goal. Also included is the full text of the many Executive Orders that will be issued by President Biden to achieve each of these goals. The National Strategy for the COVID-19 Response and Pandemic Preparedness is required reading for anyone interested in or concerned about the COVID-19 pandemic and its effects on American society. **Tourism and Gender-based Violence Challenging Inequalities** "*This book focuses on the multiple and interconnected manifestations of violence that women/girls encounter in tourism consumption and production while seeking to open the debate on violence against sexual minorities (LGBT) and discussing men/boys as victims and perpetrators of GBV*"-- **ICICKM 2018 15th International Conference on Intellectual Capital Knowledge Management & Organisational Learning** Academic Conferences and publishing limited **Violence Against Women in Politics** Oxford University Press, USA "*Women have made significant inroads into politics in recent years, but in many parts of the world, their increased engagement has spurred physical attacks, intimidation, and harassment intended to deter their participation. This book provides the first comprehensive account of this phenomenon, exploring how women came to give these experiences a name - violence against women in politics - and lobbied for its increased recognition by citizens, states, and international organizations. Tracing how this concept emerged inductively on the global stage, the volume draws on research in multiple disciplines to resolve lingering ambiguities regarding its contours. It argues that this phenomenon is not simply a gendered extension of existing definitions of political violence privileging physical aggressions against political rivals. Rather, violence against women in politics is a distinct phenomenon involving a broad range of harms to attack and undermine women as political actors. Drawing on a wide range of country examples, the book illustrates what this violence looks like in practice, as well as catalogues emerging solutions around the world. Issuing a call to action, it considers how to document this phenomenon more effectively, as well as understand the political and social implications of allowing violence against women in politics to continue unabated. Highlighting the threats it poses to democracy, human rights, and gender equality, the volume concludes that tackling violence against women in politics requires ongoing dialogue and collaboration to ensure women's equal rights to participate - freely and safely - in political life around the globe*"-- **Handbook on the Geographies of Innovation** Edward Elgar Publishing **Global Innovation Index 2017 Innovation Feeding the World** WIPO *The Global Innovation Index provides detailed metrics about the innovation performance of 127 countries and economies around the world. Its 81 indicators explore a broad vision of innovation, including political environment, education, infrastructure and business sophistication. This year's report reviews the state of innovation in agriculture and food systems across sectors and geographies. Chapters of the report provide more details on this year's theme from academic, business, and particular country perspectives from leading experts and decision makers.* **Judicial Bench Book on Violence Against Women in Commonwealth East Africa** Commonwealth Secretariat *The Judicial Bench Book on Violence Against Women in Commonwealth East Africa situates VAW in Kenya, Rwanda, Tanzania and Uganda. By placing VAW within the socio-cultural and legal context of the region, the bench book will enhance the ability of judicial officers to handle cases of VAW, both within a human rights as well as a gender perspective.* **Region-Building in Southern Africa Progress, Problems and Prospects** Zed Books Ltd. *How successful have Southern African states been in dealing with the major issues that have faced the region in recent years? What could be done to produce more cohesive and effective region-building in Southern Africa? In this original and wide-ranging volume, which draws on an interdisciplinary team of mainly African and African-based specialists, the key political, socio-economic, and security challenges facing Southern Africa today are addressed. These include the various issues confronting the Southern African Development Community (SADC) and its institutions; such as HIV/AIDS, migration and xenophobia, land-grabbing and climate change; and the role of the main external actors involved with the region, including the United Nations, the European Union, the United States, and China. The book also looks at the Southern African Customs Union and Southern African Development Finance Institutions, including the Development Bank of Southern Africa and Industrial Development Corporation, and issues of gender and peacebuilding. In doing so, the book goes to the heart of analyzing the effectiveness of SADC and other regional organisation, suggesting how region-building in Southern Africa may be compared with similar attempts elsewhere in Africa and other parts of the world.* **DFID in 2009-10 response to the International Development (Reporting and Transparency) Act 2006** The Stationery Office *This report provides a summary of the recent contribution of the Department for International Development to delivering the Millenium Development Goals. It includes details by country describing progress made and DFID's contribution. Yet, despite of years of research and standardization efforts, many problems persist that prevent e-business from achieving its full potential. Problems arise from different data vocabularies, classification schemas, document names, structures, exchange formats and their varying roles in business processes. Non-standardized business terminology, lack of common acceptable and understandable processes (grammar), and lack of common dialog rules (protocols) create barriers to improving electronic business processes. Handbook of Research on E-Business Standards and Protocols: Documents, Data and Advanced Web Technologies contains an overview of new achievements in the field of e-business standards and protocols, offers in-*

depth analysis of and research on the development and deployment of cutting-edge applications, and provides insight into future trends. This book unites new research that promotes harmony and agreement in business processes and attempts to choreograph business protocols and orchestrate semantic alignment between their vocabularies and grammar. Additionally, this Handbook of Research discusses new approaches to improving standards and protocols, which include the use of intelligent agents and Semantic Web technology. **The Effects of School-Related Gender-Based Violence on Academic Performance Evidence from Botswana, Ghana and South Africa Preventing and Responding to Gender-based Violence in Middle and Low-income Countries A Global Review and Analysis** World Bank Publications *Worldwide, patterns of violence against women differ markedly from violence against men. For example, women are more likely than men to be sexually assaulted or killed by someone they know. The United Nations has defined violence against women as "gender-based" violence, to acknowledge that such violence is rooted in gender inequality and is often tolerated and condoned by laws, institutions, and community norms. Violence against women is not only a profound violation of human rights, but also a costly impediment to a country's national development. While gender-based violence occurs in many forms throughout the life cycle, this review focuses on two of the most common types-physical intimate partner violence and sexual violence by any perpetrator. Unfortunately, the knowledge base about effective initiatives to prevent and respond to gender-based violence is relatively limited. Few approaches have been rigorously evaluated, even in high-income countries. And such evaluations involve numerous methodological challenges. Nonetheless, the authors review what is known about more and less effective-or at least promising-approaches to prevent and respond to gender-based violence. They present definitions, recent statistics, health consequences, costs, and risk factors of gender-based violence. The authors analyze good practice initiatives in the justice, health, and education sectors, as well as multisectoral approaches. For each of these sectors, they examine initiatives that have addressed laws and policies, institutional reforms, community mobilization, and individual behavior change strategies. Finally, the authors identify priorities for future research and action, including funding research on the health and socioeconomic costs of violence against women, encouraging science-based program evaluations, disseminating evaluation results across countries, promoting investment in effective prevention and treatment initiatives, and encouraging public-private partnerships.* **Handbook on the Crime Prevention Guidelines Making Them Work** United Nations Publications *All countries strive to ensure safety and security for their citizens and to increase the quality of their lives. The Handbook offers a concise overview of the main considerations to be taken into account in planning and implementing crime prevention strategies and interventions. It also recognises that there are some major differences between regions and countries in terms of the challenges posed by crime and victimization and the importance of adapting programmes to local contexts. The main emphasis is on how crime prevention strategies based on the guidelines developed by the United Nations can be entrenched and sustained over time. It includes information on the kinds of methods and tools that can be utilised and are becoming increasingly available.* **Waste Valorisation and Recycling 7th IconSWM—ISWMAW 2017, Volume 2** Springer *This book gathers high-quality research papers presented at the Seventh International Conference on Solid Waste Management, held at Professor Jayashankar Telangana State Agricultural University, Hyderabad on December 15-17, 2017. The Conference, IconSWM 2017, is as an official side event of the high-level Intergovernmental Eighth Regional 3R Forum in Asia and the Pacific. As a pre-event, it also aims to generate scientific inputs to the policy consultations at the Eighth Regional 3R Forum co-organised by the UNCRD/UNDESA, MoEFCC India, MOUD India and MOEJ, Japan. At the IconSWM 2017, researchers from more than 30 countries presented their work on Solid Waste Management. Divided into three volumes, this book shares their papers, which address various issues related to innovation and implementation in sustainable waste management, segregation, collection and transportation of waste, treatment technologies, policies and strategies, energy recovery, life cycle analysis, climate change, and research and business opportunities.* **Global Report on Trafficking in Persons 2020** UN *The 2020 UNODC Global Report on Trafficking in Persons is the fifth of its kind mandated by the General Assembly through the 2010 United Nations Global Plan of Action to Combat Trafficking in Persons. It covers more than 130 countries and provides an overview of patterns and flows of trafficking in persons at global, regional and national levels, based primarily on trafficking cases detected between 2017 and 2019. As UNODC has been systematically collecting data on trafficking in persons for more than a decade, trend information is presented for a broad range of indicators.* **World Report 2022 Events of 2021** Seven Stories Press *The best country-by-country assessment of human rights. The human rights records of more than ninety countries and territories are put into perspective in Human Rights Watch's signature yearly report. Reflecting extensive investigative work undertaken by Human Rights Watch staff, in close partnership with domestic human rights activists, the annual World Report is an invaluable resource for journalists, diplomats, and citizens, and is a must-read for anyone interested in the fight to protect human rights in every corner of the globe.* **The Arms Trade Treaty A Commentary** Oxford University Press *The United Nations Arms Trade Treaty became binding international law in late 2014, and although the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by States Parties, there exists controversy as to the meaning of certain key provisions. Furthermore, the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty, but does not detail how such a body should be established and how it should effectively function. The Arms Trade Treaty: A Commentary explains in detail each of the treaty provisions, the parameters for prohibitions or the denial of transfers, international cooperation and assistance, and implementation obligations and mechanisms. As states ratify and implement the Treaty over the next few years, the commentary provides invaluable guidance to government officials, commentators, and scholars on the meaning of its contentious provisions. This volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the Arms Trade Treaty regulates. It covers international human rights, trade, disarmament, humanitarian law, criminal law, and state-to-state use of force, as well as the application of the treaty to non-state actors.* **The Social Determinants of Mental Health** American Psychiatric Pub *The Social Determinants of Mental Health aims to fill the gap that exists in the psychiatric, scholarly, and policy-related literature on the social determinants of mental health: those factors stemming from where we learn, play, live, work, and age that impact our overall mental health and well-being. The editors and an impressive roster of chapter authors from diverse scholarly backgrounds provide detailed information on topics such as discrimination and social exclusion; adverse early life experiences; poor education; unemployment, underemployment, and job insecurity; income inequality, poverty, and neighborhood deprivation; food insecurity; poor housing quality and housing instability; adverse features of the built environment; and poor access to mental health care. This thought-provoking book offers many beneficial features for clinicians and public health professionals:*

Clinical vignettes are included, designed to make the content accessible to readers who are primarily clinicians and also to demonstrate the practical, individual-level applicability of the subject matter for those who typically work at the public health, population, and/or policy level. Policy implications are discussed throughout, designed to make the content accessible to readers who work primarily at the public health or population level and also to demonstrate the policy relevance of the subject matter for those who typically work at the clinical level. All chapters include five to six key points that focus on the most important content, helping to both prepare the reader with a brief overview of the chapter's main points and reinforce the "take-away" messages afterward. In addition to the main body of the book, which focuses on selected individual social determinants of mental health, the volume includes an in-depth overview that summarizes the editors' and their colleagues' conceptualization, as well as a final chapter coauthored by Dr. David Satcher, 16th Surgeon General of the United States, that serves as a "Call to Action," offering specific actions that can be taken by both clinicians and policymakers to address the social determinants of mental health. The editors have succeeded in the difficult task of balancing the individual/clinical/patient perspective and the population/public health/community point of view, while underscoring the need for both groups to work in a unified way to address the inequities in twenty-first century America. The Social Determinants of Mental Health gives readers the tools to understand and act to improve mental health and reduce risk for mental illnesses for individuals and communities. Students preparing for the Medical College Admission Test (MCAT) will also benefit from this book, as the MCAT in 2015 will test applicants' knowledge of social determinants of health. The social determinants of mental health are not distinct from the social determinants of physical health, although they deserve special emphasis given the prevalence and burden of poor mental health.
