THE EGG AND I

Pickle Partners Publishing When Betty MacDonald married a marine and moved to a small chicken farm on the Olympic Peninsula in Washington State, she was largely unprepared for the rigors of life in the wild. With no running water, no electricity, a house in need of constant repair, and days that ran from four in the morning to nine at night, the MacDonalds had barely a moment to put their feet up and relax. And then came the children. Yet through every trial and pitfall—through chaos and catastrophe—this indomitable family somehow, mercifully, never lost its sense of humor. A beloved literary treasure for more than half a century, Betty MacDonald's The Egg and I is a heartwarming and uproarious account of adventure and survival on an American frontier.—Print Ed.

You might like to share a delicious Snow Delight with warmhearted Duane. While you're slurping away, if C.C. suddenly asks you where you've come from, it's not because she's nosy; she is simply gathering scientific data. And if a less-than-friendly visitor arrives to sneak, shove, and shake things up, Duane and the others might discover that life isn't always as peaceful as mid-late-afternoon nap. Fortunately, they know that change is as much a part of life as picnics and Tuesdays and cozy stories shared among friends.

A WRINKLE IN TIME

GENERAL PRESS *A Wrinkle in Time* is the winner of the 1963 Newbery Medal. It was a dark and stormy night—Meg Murry, her small brother Charles Wallace, and her mother had come down to the kitchen for a midnight snack when they were upset by the arrival of a most disturbing stranger. "Wild nights are my glory," the unearthly stranger told them. "I just got caught in a downdraft and blown off course. Let me sit down for a moment, and then I'll be on my way. Speaking of ways, by the way, there is such a thing as a tesseract." A tesseract (in case the reader doesn't know) is a wrinkle in time. To tell more would rob the reader of the enjoyment of Miss L'Engle's unusual book. *A Wrinkle in Time*, winner of the Newbery Medal in 1963, is the story of the adventures in space and time of Meg,

Charles Wallace, and Calvin O'Keefe (athlete, student, and one of the most popular boys in high school). They are in search of Meg's father, a scientist who disappeared while engaged in secret work for the government on the tesseract problem.
