EQUITY AND EXCELLENCE:

LIBERATING THE NHS

The Stationery Office Equity and Excellence : Liberating the NHS: Presented to Parliament by the Secretary of State for Health by Command of Her Majesty

HAEMATOLOGY NURSING

John Wiley & Sons Haematology Nursing is a comprehensive handbook, with a nursing focus, on the care and management of patients with haematological disorders. Divided into four sections, the first provides an introduction to haematology, looking at haemopoiesis, immunology and genetics. Section Two covers non-malignant haematology, including anaemia, haemoglobinopathies and haemochromatosis. Section Three explores the pathophysiology, care and management of myeloproliferative and lymphoproliferative disorders, including leukaemia, myeloma, and lymphoma. The final section provides information on various nursing care interventions, including blood transfusion, venous access devices, and palliative care. Aimed principally at nurses working in a variety of settings including haematology/oncology wards, medical/haematology wards, specialist bone marrow transplant centres, and community settings, Haematology Nursing is an essential and much-needed reference guide.

HIGH QUALITY CARE FOR ALL

NHS NEXT STAGE REVIEW FINAL REPORT

The Stationery Office This review incorporates the views and visions of 2,000 clinicians and other health and social care professionals from every NHS region in England, and has been developed in discussion with patients, carers and the general public. The changes proposed are locally-led, patient-centred and clinically driven. Chapter 2 identifies the challenges facing the NHS in the 21st century: ever higher expectations; demand driven by demographics as people live longer; health in an age of information and connectivity; the changing nature of disease; advances in treatment; a changing health workplace. Chapter 3 outlines the proposals to deliver high quality care for patients and the public, with an emphasis on helping people to stay healthy, empowering patients, providing the most effective treatments, and keeping patients as safe as possible in healthcare environments. The importance of quality in all aspects of the NHS is reinforced in chapter 4, and must be understood from the perspective of the patient's safety, experience in care received and the effectiveness of that care. Best practice will be widely promoted, with a central role for the National Institute for Health and Clinical Excellence (NICE) in expanding national standards. This will bring clarity to the high standards expected and quality performance will be measured and published. The review outlines the need to put frontline staff in control of this drive for quality (chapter 5), with greater freedom to use their expertise and skill and decision-making to find innovative ways to improve care for patients. Clinical and managerial leadership skills at the local level need further development, and all levels of staff will receive support through education and training (chapter 6). The review recommends the introduction of an NHS Constitution (chapter 7). The final chapter sets out the means of implementation.

REPORT OF THE MID STAFFORDSHIRE NHS FOUNDATION TRUST PUBLIC INQUIRY

EXECUTIVE SUMMARY

The Stationery Office This public inquiry report into serious failings in healthcare that took place at the Mid Staffordshire NHS Foundation Trust builds on the first independent report published in February 2010 (ISBN 9780102964394). It further examines the suffering of patients caused by failures by the Trust: there was a failure to listen to its patients and staff or ensure correction of deficiencies. There was also a failure to tackle the insidious negative culture involving poor standards and a disengagement from managerial and leadership responsibilities. These failures are in part a consequence of allowing a focus on reaching national access targets, achieving financial balance and seeking foundation trust status at the cost of delivering acceptable care standards. Further, the checks and balances that operate within the NHS system should have prevented the serious systemic failure that developed at Mid Staffs. The system failed in its primary duty to protect patients and maintain confidence in the healthcare system. This report identifies numerous warning signs that could and should have alerted the system to problems developing at the Trust. It also sets out 290 recommendations grouped around: (i) putting the patient first; (ii) developing a set of fundamental standards, easily understood and accepted by patients; (iii) providing professionally endorsed and evidence-based means of compliance of standards that are understood and adopted by staff; (iv) ensuring openness, transparency and candour throughout system; (v) policing of these standards by the healthcare regulator; (vi) making all those who provide care for patients, properly accountable; (vii) enhancing recruitment, education, training and support of all key contributors to the provision of healthcare; (viii) developing and sharing ever improving means of measuring and understanding the performance of individual professionals, teams, units and provider organisations for the patients, the public, and other stakeholders.

IN PLACE OF FEAR

Read Books Ltd The collective principle asserts that... no society can legitimately call itself civilised if a sick person is denied medical aid because of lack of means. — Aneurin Bevan.

DEPARTMENT OF HEALTH: HARD TRUTHS: THE JOURNEY TO PUTTING PATIENTS FIRST - CM. 8751

THE JOURNEY TO PUTTING PATIENTS FIRST, GOVERNMENT RESPONSE TO THE MID STAFFORDSHIRE NHS FOUNDATION TRUST PUBLIC INQUIRY

The Stationery Office The Government's initial response, Patients First and Foremost (Cm. 8576, ISBN 9780101857628), set out a radical plan to prioritise care, improve transparency and ensure that where poor care is detected, there is clear action and clear accountability. This document now provides a detailed response to the 290 recommendations the Inquiry made across every level of the system. It also responds to six independent reviews commissioned to consider some of the key issues identified by the Inquiry. This document sets out how the whole health and care system will prioritise and build on this, including major new action in vital areas including: transparent monthly reporting of ward-by-ward staffing levels and other safety measures; a statutory and professional duties of candour; legislate at the earliest available opportunity on Wilful Neglect; a new fit and proper person's test which will act as a barring scheme; all arm's length bodies and the Department of Health have signed a protocol in order to minimise bureaucratic burdens on Trusts; a new Care Certificate to ensure that Healthcare Assistants and Social Care Support Workers have the right fundamental training and skills in order to give personal care to patients and service users; and the Care Bill will introduce a new criminal offence applicable to care providers that supply or publish certain types of information that is false or misleading, where that information is required to comply with a statutory or other legal obligation. It looks at preventing problems; detecting problems quickly; taking action promptly; ensuring robust accountability and ensuring staff are trained and motivated

BRINGING TOGETHER PHYSICAL AND MENTAL HEALTH

A NEW FRONTIER FOR INTEGRATED CARE

PATIENTS FIRST AND FOREMOST

THE INITIAL GOVERNMENT RESPONSE TO THE REPORT OF THE MID STAFFORDSHIRE NHS FOUNDATION TRUST PUBLIC INQUIRY

The Stationery Office This is a Government response to (HCP 898, (ISBN 9780102981469)), the inquiry into the Mid Staffordshire NHS Foundation Trust on the failure of care. It sets out a collective commitment and a plan of action to eradicate harm and aspire to excellence and to ensure that patients are "the first and foremost consideration of the system and everyone who works in it" and so restore the NHS to its core humanitarian values. This response sets out a five point plan, under the following headings: (A) Preventing problems; (B) Detecting problems quickly; (C) Taking action promptly; (D) Ensuring robust accountability; (E) Ensuring staff are trained and motivated.

THE HEALTH AND SOCIAL CARE ACT 2008 (REGULATED ACTIVITIES) REGULATIONS 2014

Enabling power: Health and Social Care Act 2008, ss. 8 (1), 20 (1) to (5A), 35, 86 (2) (4), 87 (1) (2), 161 (3) (4). Issued: 11.07.2014. Made: - Laid: -. Coming into force: In accord. with reg. 1. Effect: S.I. 2012/921 partially revoked & 2010/781; 2011/2711; 2012/1513 revoked. Territorial extent & classification: E. For approval by resolution of each House of Parliament

INDEPENDENT INQUIRY INTO CARE PROVIDED BY MID STAFFORDSHIRE NHS FOUNDATION TRUST JANUARY 2005 - MARCH 2009

The Stationery Office Concerns about mortality and the standard of care provided at the Mid Staffordshire NHS Foundation Trust resulted in an investigation by the Healthcare Commission which published a highly critical report in March 2009, followed by two reviews commissioned by the Department of Health. These investigations gave rise to widespread public concern and a loss of confidence in the Trust, its services and management. This Inquiry was set up primarily to give those most affected by poor care an opportunity to tell their stories and to ensure that the lessons learned were fully taken into account in the rebuilding of confidence in the Trust. The evidence received about the patient experience covered many areas of basic nursing and medical care, communication and discharge management. The culture of the Trust was not conducive to providing good care for patients or providing a supportive working environment for staff due to: attitudes of patients and staff; bullying; target-driven priorities; disengagement from management; low staff morale; isolation from the wider NHS community; lack of openness; acceptance of poor standards of conduct; reliance on external

assessments; denial. The report also looks at the management of significant issues - ward reconfiguration, finance, staff cuts - governance, staff review, the Board, mortality statistics and external organisations. Major themes identified by the Inquiry are: focus on process not outcomes; failure to listen to complaints; insufficient attention to maintenance of professional standards; lack of support for staff; failure to meet the challenge of care for the elderly; lack of transparency; disregard of the significance of mortality statistics.

DEMENTIA-FRIENDLY HEALTH AND SOCIAL CARE ENVIRONMENTS

The quality and readiness of the health and social care estate is vital for high quality, safe and efficient health and social care. This HBN sets out the design guidance for dementia-friendly health and social care environments. The design principles and the core design features together with a selection of case studies provide guidance for the development of new design solutions and the adaptation/extension of existing facilities. HBN 08-02 is intended particularly for those who are new to the topic and also for people living with dementia or their advocates who may be engaged as part of stakeholder engagement processes. It may also be helpful for commissioning organisations, auditors and regulators, giving an overall perspective of the dementia-friendly design issues that need to be addressed

A NURSE'S SURVIVAL GUIDE TO LEADERSHIP AND MANAGEMENT ON THE WARD 2

A NURSE'S SURVIVAL GUIDE TO LEADERSHIP AND MANAGEMENT ON THE WARD

Elsevier Health Sciences Are you managing other people? If so, you will find this an indispensable guide to situations and problems faced by ward managers, sisters and charge nurses today. This new edition retains the book's practical approach, providing hints and tips on cutting through bureaucracy to ensure patient care remains uppermost on your agenda. This book will help you to Manage your time Create a positive work environment Ensure care is patient-centred Manage your budget Be politically aware Manage difficult staff and situations This book will help you to . Organise yourself and your workload . Manage staff, people and difficult situations . Make sure care is patient-centred . Manage your budget . Deal with complaints . Handle staff recruitment . Be a good role model. This new edition retains the book's practical approach, providing hints and tips on cutting through bureaucracy to ensure patient care remains uppermost on your agenda. Reflects the most recent developments affecting ward management, including the current national focus on quality indicators and working within tighter budgets. A new chapter on 'Improving Quality and Safety' explains the national quality initiatives and their impact, as well as taking you through the practical processes of handling complaints and incidents. Updated guidance on pertinent issues such as 'whistle-blowing' and 'safeguarding'.

UCL HOSPITALS INJECTABLE MEDICINES ADMINISTRATION GUIDE

PHARMACY DEPARTMENT

John Wiley & Sons "I would definitely recommend this book to all staff with an interest and involvement in intravenous drug therapy." —The Pharmaceutical Journal "There is no doubt that nurses will find this small book useful. It should be available for consultation in any clinical area where drugs are administered to patients by the injectable routes." —Journal of Clinical Nursing The safe administration of injectable medicines is key to patient safety. The NPSA recognises the use of injectable medicines is a high risk activity and recommends written information about injectables to be available at the point of preparation. The UCL Hospitals Injectable Medicines Administration Guide is a practical, accessible guide covering many important aspects of administering medicines by injection. It provides clear, concise information on the preparation and administration of over 245 injectable medicines for adults, paediatrics and neonates. It is an essential resource for nurses and other healthcare professionals: it provides the key information and advice needed for the safe and effective administration of injectable medicines. The Guide's introductory section provides a concise yet comprehensive overview of injectable therapy, including the risks and benefits of IV administration, infusion devices, and pharmaceutical aspects of injectable therapy. For each drug the alphabetically tabulated monographs provide: A practical method of preparation and administration via the IV, IM and SC routes, with risk reduction in mind at every step Expert advice from the team of specialist pharmacists at UCLH to ensure safe and pragmatic use of each medicine Monitoring advice for the management of reactions that may occur during administration Y-site and syringe driver compatibility data Minimum infusion volume data for fluid restricted patients Extravasation warnings, pH, sodium content, displacement values, stability and flush data New to this edition: 40 new monographs including recently marketed, unlicensed, rarely used and specialist medicines Detailed advice for the administration of high risk medicines such as heparin, with access to UCLH's medicine related guidelines at www.wiley.com/go/UCLH A colour-coded NPSA risk assessment for every mode of administration for every medicine, to highlight the safest method of administration A user guide and tutorial to give new readers confidence in using and understanding the Guide Revised chapters on administration methods and devices, aseptic non-touch technique, and latex allergy Fully revised and expanded Y-site compatibility section Spiral binding to allow the book to be left open at the relevant page The Guide is also available electronically at www.uclhguide.com.

INFECTION CONTROL IN THE BUILT ENVIRONMENT

This HBN supersedes and replaces all versions of Health Facilities Note 30 (HFN30). It discusses the various stages of a capital build project from initial concept through to postproject evaluation and highlights the major infection prevention and control (IPC) issues and risks that need to be addressed at each particular stage to achieve designed-in IPC. The principles of this guidance can be applied to all healthcare facilities, mental health settings are included. The most important points raised by the document are the need: for an awareness of appropriate Health Building Notes and Health Technical Memoranda pertinent to new build or refurbishment projects; for timely, comprehensive and collaborative partnership between all parties to achieve IPC goals specific to each construction project; for all stakeholders to understand the basic principles of 'designed-in' IPC; to understand and assess the risks of infection relating to construction projects and the physical environment; for robust project management in relation to IPC considerations for all new-build and refurbishment projects; for a system of signing-off plans and meeting notes to include all participating parties including the IPC team; for quality control throughout the duration of the construction project; to regularly consult with and update all relevant parties throughout the project; to continually monitor developments.

ROBOTIC UROLOGY

This updated edition offers guidance on the application of robotic surgery in urology. Each technique is described in detail, with careful explanation of the different surgical steps The book brings together leading robotic surgeons from around the world and utilises their knowledge once again to update and provide a manual that covers all the oncologic and reconstructive procedures in urologic surgery that are performed with robotic assistance This book serves as an ideal reference work for all urologists and should contribute in supporting new robotic teams.

HAEMOPHILIA AND OTHER INHERITED BLEEDING DISORDERS

W.B. Saunders Company A high-level textbook covering haemophilia and related blood disorders including descriptions of the clinical features and investigations of these conditions; explanations of the basic sciences underlying the field; presentation of treatment options and discussions of the consequences of treatment, socially and economically as well as biologically.

ACUTE AND CRITICAL CARE NURSING AT A GLANCE

John Wiley & Sons From the publishers of the market-leading at a Glance series comes a comprehensive yet accessible overview of all the fundamental elements of acute and critical care nursing. Acute and Critical Care Nursing at a Glance provides an introduction to the key knowledge and skills for patient assessment and problem identification, as well as how to plan, implement and evaluate care management strategies. It also explores clinical decision-making processes and their impact on care delivery, as well as key psychosocial issues, pain management, and safe transfer. All information is presented in a clear, double-page spread with key information accompanied by tables, illustrations, photographs and diagrams. Key features: Superbly illustrated, with full colour illustrations throughout An accessible, evidence-based, introduction to a complex topic Presents information structured according to the Resuscitation Council's systematic ABCDE framework for ease of understanding Accompanied by patient case studies to help apply theory to practice Acute and Critical Care Nursing at a Glance is ideal for nursing students, healthcare assistants, and registered nurses working within the acute and critical care setting.

SPINAL NEUROSURGERY

Neurosurgery by Example Part of the Neurosurgery by Example series, this volume on spinal neurosurgery presents exemplary cases in which renowned authors guide readers through the assessment and planning, decision making, surgical procedure, after care, and complication management of common and uncommon disorders. The cases explore the spectrum of clinical diversity and complexity within spinal neurosurgery, including occipital cervical dislocation, cervical myelopathy, thoracic cord compression, lumbar stenosis, and more. Each chapter also contains 'pivot points' that illuminate changes required to manage patients in alternate or atypical situations, and pearls for accurate diagnosis, successful treatment, and effective complication management. Containing a focused review of medical evidence and expected outcomes, Spinal Neurosurgery is appropriate for neurosurgeons who wish to learn more about a subspecialty, and those preparing for the American Board of Neurological Surgery oral examination. Advance Praise for Spinal Neurosurgery "I congratulate Drs. Harrop and Maulucci for this well done book that utilizes a unique and very effective format to cover the gamut of spine surgery and spine care topics. The book is well organized, lavishly illustrated with numerous figures and images, and includes oral board review pearls that are of particular value for those studying for their neurosurgery board examinations." -- Edward Benzel, MD, Emeritus Chair of Neurosurgery, Cleveland Clinic, Cleveland, OH "Through this extensive collection of various spine related clinical scenarios, the reader is able to learn very pertinent management principles and pearls. This book is particularly useful for those who are preparing for the oral boards, but also serves as excellent reading material for neurosurgeons and orthopedic spine surgeons at any stage in their career." -- Charles Sansur, MD, Associate Professor of Neurosurgery, University of Maryland School of Medicine, Baltimore, MD "Drs. Harrop and Maulucci have assembled an excellent compendium of cases/pathologies. The "Case-based" approach of this text lends itself to an easy readability as well as a compartmentalization of the reading for busy practitioners. This book is extremely useful to practitioners at all stages in their career, as it covers both basic and controversial information for each topic, and may be particularly useful for those surgeons reviewing for their oral board examination." -- Michael Y. Wang, MD, FACS, Professor of Neurological Surgery and Rehab, Medicine Spine Fellowship Director, Chief of Neurosurgery, University of Miami Hospital and Miller School of Medicine, Miami, FL

EBOOK: INCLUSION IN THE EARLY YEARS

McGraw-Hill Education (UK) This book provides critical insights and practical approaches to help you support babies and young children with special educational needs and disability (SEND) in the early years. The book starts by briefly considering the current political and legislative context before considering what this means for children with SEND in early years settings. Numerous case studies offer real-world examples to challenge and develop your thinking and there are summary key points, thought provoking questions and ideas for developing practice. In addition the book draws on parents' and children's perspectives to assist you in devising an individual and setting action plan for babies and young children with SEND. Key content includes: How the principle of the 'unique child' informs practice for all children Implications of the 2014 Code of Practice for early years provision What 'good practice' looks like Early identification and intervention, and engagement with parents Exploring the role of the SENCO Keeping families' and children's voices at the heart of all decision making. This is an invaluable book for anyone involved in early years provision who strives to improve their practice to include all children and their families. Kay Mathieson is an Early Years Consultant and Director at Linden Learning Ltd, UK. Kay Mathieson is a passionate advocate for making inclusive values the core of high quality early years practice so that every unique child can access their entitlement to support for learning and development. She starts with a fascinating journey through historical-political attitudes to special

educational needs and disability. The contemporary case studies bring to life the joys, challenges and dilemmas involved for practitioners, children and parents. Their words alongside Kay's own reflections, knowledge and expertise make this a 'must-read' for all early years leaders and practitioners. Helen Moylett, President of British Association of Early Education

CARE PLANNING

A GUIDE FOR NURSES

Routledge *Why is care planning important? How can you use care planning effectively in your own practice? Being able to plan the care of patients is one of most important aspects of a nurse's role. Using an interactive approach, this book explores the reasons why care planning is so important and explains the theory behind the practice, providing a step-by-step guide to assessing patients, diagnosing problems, planning goals and interventions, and evaluating progress.*

CRITICAL CARE OUTREACH

John Wiley & Sons *Following the publication of the department of health document - Comprehensive Critical Care (2000), the majority of hospitals in England have set up Critical Care Outreach Teams. The Government provided a significant sum of money for hospitals to set up outreach services. There are now calls for an evaluation of their impact. The book is set out in five key sections. Each section features chapters that address the conceptual and real life issues. In each section there is a chapter, set out as a case study example, demonstrating how innovative practices and service developments are going on around critical care outreach. The book will draw upon the knowledge, experience and clinical expertise of senior critical care nurses and doctors from a critical care network. The book will have a definite practical application and will provide tips to enhance practice. * Chapters contain useful 'how to' guides, prompts for critical thinking and case studies. * Very little has previously been published on this topic*

MANAGING BENEFITS

OPTIMIZING THE RETURN FROM INVESTMENTS

Projects and programmes should achieve a return on the investment made by the owner or sponsor. This return is now thought of as the benefits that accrue from the investment: some financial, others perhaps harder to define, but nonetheless just as important in justifying the investment. Making sure that they are realised, and that unanticipated benefits are maximised, is as important as the initial justification, and without that many projects have earned a bad name for project management. This publication provides comprehensive guidance on how to manage delivery of the benefits used to justify investment in change. It provides guidance for all involved in successful change delivery from senior responsible owners and directors through to portfolio, programme and project managers. The guidance is the source material for an accredited qualification from APMG-International

UNDERSTANDING NHS FINANCIAL PRESSURES

HOW ARE THEY AFFECTING PATIENT CARE?

A TEXTBOOK OF COMMUNITY NURSING

Routledge *A Textbook of Community Nursing is a comprehensive and evidence-based introduction covering the full range of professional topics, including professional approaches to care, public health, eHealth, therapeutic relationships and the role of community nursing in mental health. The new edition has been updated throughout, including new guidelines and policies. It also provides a stronger focus on evidence-based practice. This user-friendly and accessible textbook includes: Current theory, policy, and guidelines for practice. All chapters are underpinned by a strong evidence base; Learning objectives for each chapter, plus exercises and activities to test current understanding, promote reflective practice, and encourage further reading; Case studies and examples from practice which draw on all branches of community nursing to illustrate practical application of theory. This is an essential text for all pre-registration nursing students, students on specialist community nursing courses, and qualified nurses entering community practice for the first time.*

ESSENCE OF CARE 2010

BENCHMARKS FOR THE FUNDAMENTAL ASPECTS OF CARE; [COMPLETE]

Stationery Office/Tso *Essence of Care was first introduced in 2001, designed to support and address the fundamentals of care. Essence of Care 2010 is a tool to help healthcare professionals take a patient-focused and structured approach to sharing and comparing practice, which is at the heart of the 12 revised benchmarks contained in the publication. The updated Essence of Care 2010 supports and reflects a number of the themes in "Equity and excellence: liberating the NHS" (Cm. 7881, ISBN 9780101788120) and provides a suite of benchmarks to drive forward best practice in delivering the fundamentals of care and improving the experiences of people who use the services. Essence of care is essential for all front line staff in health and social care settings. This title is a complete set of all 12 benchmarks along with "How to use Essence of care 2010", which includes a description of the benchmarking tool and explains how to use the 12 benchmarks. The benchmarks and "How to use" are all available separately*

PSYCHOTROPIC DRUG DIRECTORY 2000

CULTURE CHANGE IN THE NHS

APPLYING THE LESSONS OF THE FRANCIS INQUIRIES

BECOMING A NURSE

FUNDAMENTALS OF PROFESSIONAL PRACTICE FOR NURSING

Taylor & Francis *The guidelines and skills required to become a nurse are always changing and it can be difficult to stay up-to-date with the current standards. This book has been specifically designed to address the main skills you need to meet NMC requirements. Becoming a Nurse will demystify what you need to know while preparing you to meet NMC standards and become a confident, practising professional. The book introduces the many subjects outside the biological which are none the less essential for both pre-registration and practising nurses. This new edition has been thoroughly updated throughout, and includes four new chapters on psychosocial concepts for nursing; sociological concepts for nursing; spiritual care; and preceptorship and transition. Like the previous edition the book also covers: Law, ethics and policy Management and leadership Communication, interpersonal skills and interprofessional working Evidence based practice Medicines management Public health and professional development Each chapter is packed full of case studies, discussion question and further readings to encourage critical thinking and reflection. It is an excellent resource to prepare you for your programme or to refresh your knowledge of NMC standards.*

WHISTLEBLOWING ARRANGEMENTS.

LIGHTING AND COLOUR FOR HOSPITAL DESIGN

A REPORT ON AN NHS ESTATES FUNDED RESEARCH PROJECT

Stationery Office/Tso *The quality of the visual hospital environment can have a positive psychological effect on patient recovery and staff performance. This guidance document focuses on the visual environment in hospitals and healthcare buildings, and the use of appropriate colour design and lighting. It was written jointly by BRE and the Colour Design Research Centre at London South Bank University, as part of a Department of Health funded project.*

POCKETBOOK OF ORTHOPAEDICS AND FRACTURES

Elsevier Health Sciences *Written by a leader in the field, the revised 2nd Edition of this outstanding, practical handbook concisely and clearly discusses the key aspects of orthopaedic theory, examination and fracture treatment for quick consultation in the clinical setting. Abundant illustrations - drawn by the author - complement the text superbly to help you understand concepts and techniques easily. Offers a user-friendly reference in a compact, pocket-sized format for on-the-go consultation. Provides unique illustrations that present clear guidance on how to perform an orthopaedic examination and treat a full range of fractures. Answers clinical questions with remarkable clarity and brevity. Includes expanded information, including coverage of additional instabilities and operative fracture treatment. Features improved illustrations to include fracture-site labeling.*

OXFORD TEXTBOOK OF INPATIENT PSYCHIATRY

Oxford University Press *Inpatient mental health care is an essential part of community-based mental health care in the UK. Patients admitted to acute mental health wards are often experiencing high levels of distress and acute mental illness and need to be assessed, managed, and treated by a wide team of mental health care professionals. Inpatient care is often a traumatic experience for patients and their relatives which can define their relationship with mental health care services. Reforming inpatient psychiatry is a priority for both patients and staff, yet there are few reference texts on this psychiatric specialty. The Oxford Textbook of Inpatient Psychiatry bridges this gap by offering a comprehensive and pragmatic guide to the UK's inpatient mental health care system today. Written and*

edited by a multidisciplinary team, this innovative resource discusses the real-life experiences and challenges of a wide range of professionals working on acute mental health wards. Organized into 8 sections this resource covers nursing, team leadership, multidisciplinary work, psychology, and medical aspects. Individual chapters address key topics such as the management of children and adolescents, and contain information on up-to-date research and best practice. Focusing on the dignity and autonomy of patients, this unique resource offers a model for clinical and organizational practice both at a national and international level.

THE ROYAL MARSDEN MANUAL OF CANCER NURSING PROCEDURES

Wiley-Blackwell The Royal Marsden is the world's first hospital dedicated to cancer diagnosis, treatment, research and education - a centre of excellence with an international reputation for ground-breaking research and pioneering the very latest in cancer treatments and technologies, as well as specialising in cancer diagnosis and education. This companion volume to the internationally successful The Royal Marsden Manual of Clinical Nursing Procedures is designed to support practitioners who work specifically with oncology patients by providing detailed evidence-based procedures and rationale, and problem-solving guidance on all aspects of oncology nursing. The Royal Marsden Manual of Cancer Nursing Procedures: Is organized and structured to represent the needs of the patient along their care pathway Provides the latest evidence underpinning all procedures Includes information on haematological procedures; pain assessment and management; wound care; oncological emergencies; and end-of-life care Gives detailed guidelines on supporting patients living with cancer with practical information on such things as benefits, exercise and nutrition. The Royal Marsden Manual of Cancer Nursing Procedures is an invaluable, definitive resource for all those involved in the provision of cancer care and support to patients and their families.

CENTRAL VENOUS ACCESS DEVICES

CARE AND MANAGEMENT

Wiley-Blackwell Central venous access devices (CVADs) are used within a variety of areas in both hospital and community health care settings to administer blood or fluids, to provide long term access for repeat transfusion of blood or blood products, chemotherapy, parenteral nutrition and antibiotic therapy, and to provide immediate access in emergency situations. Central venous access devices is a practical guide to the care and management of CVADs aimed at student nurses, newly qualified nurses and more experienced nurses who are unfamiliar in dealing with these devices. Central venous access devices addresses patient assessment and education, relevant anatomy and physiology, appropriate device selection, and guidelines on insertion, follow-up care and management of CVADs. Each category of CVAD - including peripherally inserted central catheters, non tunnelled central venous catheters, skin tunnelled catheters and implanted ports - is explored in turn. Concluding chapters explore hazards of insertion, prevention and management of complications, and patient perspectives on living with a CVAD

WELCOMING ENTRANCES AND RECEPTION AREAS

IMPROVING THE PATIENT EXPERIENCE

Stationery Office Books (TSO) This publication contains best practice guidance on the design of hospital entrances and reception areas, in order to help provide a welcoming and user friendly experience for patients and visitors. Chapters consider a variety of aspects including: the user's journey, including the approach to the hospital site and building; operational management issues such as cleaning and other housekeeping duties; wayfinding and the signage system; information provision; food, refreshment and other services; interior design, lighting and seating; hard and soft landscaping; external lighting; and use of art projects.

GUIDELINES ON CONFIDENTIALITY

ADULT NURSING AT A GLANCE

John Wiley & Sons Everything you need to know about Adult Nursing...at a Glance! Adult Nursing at a Glance is the perfect companion for study and revision for Adult Nursing students from the publishers of the market-leading at a Glance series. This title blends up-to-date evidence and essential knowledge from expert experience of nursing practice, research and teaching, in an easy-to-follow guide for student and newly qualified nurses. Adult Nursing at a Glance covers the essential components of excellent nursing, highlighting the skills that all students need to develop from the outset of their studies, and encompassing organisational and leadership skills. With an emphasis on patient care and dignity, this title is the perfect guide to healthcare delivery, management and professional development. • Follows a simple structure based around systems of the body for quick access to information, with the most common disorders of these systems • Is accompanied by a comprehensive companion website with self-testing features • Ward and Primary Care covered throughout the text • Contains all the information you need to provide the best patient care, including care planning, symptom control, communication and health promotion. This title is also available as a mobile App from MedHand Mobile Libraries. Buy it now from iTunes, Google Play or the MedHand Store.

MIND MAPS FOR MEDICINE

"An innovative, visual textbook to help medical students learn and understand core medical conditions. The book features over 100 easy to follow, full colour mind maps of clinically relevant medical conditions using a systems-based structure: Cardiology Respiratory Gastroenterology Renal Endocrinology Neurology Rheumatology Infectious diseases The mind maps give you quick access to key information in a visually appealing way. Where appropriate the mind map is followed by additional reference information to remind you about, for example, risk assessment tools, staging criteria, and treatment algorithms. All mind maps are presented consistently and cover: Definition Pathophysiology Causes and Risk factors Clinical features: signs and symptoms Epidemiology Investigations: blood tests and imaging Management: lifestyle, pharmacological and surgical Complications Other key features: Images are provided throughout the book to help illustrate key signs. Mnemonics are used throughout to aid learning. Information is up-to-date and based around the latest guidelines. All topics are clinically relevant or likely to appear in medical school examinations. Mind Maps for Medicine is crucial reading for all medical students but particularly those who consider themselves visual learners."--

APLEY'S SYSTEM OF ORTHOPAEDICS AND FRACTURES

Butterworth-Heinemann
