Aside from an annotated English translation of the sermon, this book also includes a series of introductory chapters providing historical context and textual commentary, followed by an anthology of Spanish crusading texts that testify to the persistence of the idea of crusade throughout the 17th century. Quaresmius' impassioned and thoroughly reasoned plea is expressed through the voice of Jerusalem herself, personified as a woman in bondage. The friar draws on many of the same rhetorical traditions and theological assumptions that first launched the crusading movement at Clermont in 1095, while also bending those traditions to meet the unique concerns of 17th-century geopolitics in Europe and the Mediterranean. Quaresmius depicts the rescue of the Holy City from Turkish abuse as a just and necessary cause. Perhaps more unexpectedly, he also presents Jerusalem as sovereign Spanish territory, boldly calling on Philip as King of Jerusalem and Patron of the Holy Places to embrace his royal duty and reclaim what is rightly his on behalf of the universal faithful. Quaresmius' early modern call to crusade ultimately helps us rethink the popular assumption that, like the chivalry imagined by Don Quixote, the crusades somehow died along with the middle ages. **Impugnacion Contra El Talmud de Los Judios, Alcoran de Mahoma, Y Contra Los Hereges ... Body, Blood, and Sexuality A Psychoanalytic Study of St. Francis' Stigmata and Their Historical Context** Peter Lang Pub Incorporated In 1224 St. Francis had his stigmata, the first stigmata in history. These spontaneous bleeding wounds, which model those of the crucified Jesus, can be considered a symptom of conversion-hysteria. According to Freud's concept of hysteria, the body, through the symptom, conveys the message of an underlying conflict, which is primarily sexual, an outcry of frustrated femininity. The stigmata of St. Francis raises two major questions: that of the psychological makeup to enable the development of such a hysterical symptom, and that of the historical context which institutionalized a bodily manifestation to answer the needs and conflicts of its time. This book answers both questions through the use of the same psychoanalytic model. **Ristretto dell'Istoria del sacro anello di Maria Vergine, che si conserua nella Chiesa Cattedrale di Perugia.
