HIGHER STANDARDS, BETTER SCHOOLS FOR ALL

MORE CHOICE FOR PARENTS AND PUPILS

The Stationery Office **The White Paper** sets out the Government's proposals to further reform the management of schools in England, with the aim of creating a system shaped by parental choice where schools have greater autonomy in admissions policy. Proposals include: i) the role of local education authorities confined to being a local commissioner of services rather than an education provider, with a focus on raising standards through spreading best practice and championing parental choice; ii) each school able to acquire a self-governing trust status (similar to the network of Academies) or become a self-governing foundation school; iii) an increased role for new providers and the creation of a national Schools Commissioner to drive change and to promote the development of trust schools; iv) an expansion in the number of Academies to 200 by the year 2010 and easier provision for independent schools to enter the state system; v) the weakest schools to be given one year to improve standards or face closure, whilst high performing schools will have reduced bureaucracy and a lighter touch inspection regime; vi) increased provision for free school transport for poorer pupils; and vii) the introduction of a right for teachers to discipline pupils.

CHART A NEW COURSE

A GUIDE TO TEACHING ESSENTIAL SKILLS FOR TOMORROW'S WORLD

International Society for Technology in Education **Discover ways to empower students to build confidence in sharing their learning, becoming more responsible digital citizens and evolving into classroom creators. In researching the top skills students need to succeed in the future, author Rachelle Dene Poth identified the following: ability to communicate, work in teams, think creatively, problem-solve and design. This book shows educators how to help students develop these essential skills through authentic, real-world learning experiences, building a pathway for the future of learning and work. In Chart a New Course, educators will get the tools they need to design more purposeful learning experiences to drive student engagement and motivation, promote creativity in learning, model risk-taking and build classroom culture. - Serve as a resource for emerging educators and those with varying levels of tech experience, helping them explore the use of different digital tools and concepts to prepare students for the future.
- Offer clear examples and narratives from students and other educators who have implemented some of the tools discussed, focusing on themes of empowered learning, innovative design and student choice.
- Explore risks taken, failures experienced and fun in working through the challenges, illustrating ways to weave established and emerging topics into curriculum. LEFT OF KARL MARX

THE POLITICAL LIFE OF BLACK COMMUNIST CLAUDIA JONES

[Duke University Press](#) In **Left of Karl Marx**, Carole Boyce Davies assesses the activism, writing, and legacy of Claudia Jones (1915-1964), a pioneering Afro-Caribbean radical intellectual, dedicated communist, and feminist. Jones is buried in London's Highgate Cemetery, to the left of Karl Marx—a location that Boyce Davies finds fitting given how Jones expanded Marxism-Leninism to incorporate gender and race in her political critique and activism. Claudia Cumberbatch Jones was born in Trinidad. In 1924, she moved to New York, where she lived for the next thirty years. She was active in the Communist Party from her early twenties onward. A talented writer and speaker, she traveled throughout the

United States lecturing and organizing. In the early 1950s, she wrote a well-known column, "Half the World," for the *Daily Worker*. As the U.S. government intensified its efforts to prosecute communists, Jones was arrested several times. She served nearly a year in a U.S. prison before being deported and given asylum by Great Britain in 1955. There she founded *The West Indian Gazette* and *Afro-Asian Caribbean News* and the Caribbean Carnival, an annual London festival that continues today as the Notting Hill Carnival. Boyce Davies examines Jones's thought and journalism, her political and community organizing, and poetry that the activist wrote while she was imprisoned. Looking at the contents of the FBI file on Jones, Boyce Davies contrasts Jones's own narration of her life with the federal government's. Left of Karl Marx establishes Jones as a significant figure within Caribbean intellectual traditions, black U.S. feminism, and the history of communism.

MARRIAGE VACATION

Simon and Schuster **In season four of Darren Star's hit TV Land series Younger, the editors at Empirical Press are shocked and deeply moved when they read Marriage Vacation, an autobiographical novel by the publisher's estranged wife, Pauline Turner Brooks. Knowing the book will cause a sensation, they decide they must publish it. Now you can read what the hype is about—including page 58 that had everyone buzzing (...and blushing). Marriage Vacation is for anyone who has ever fantasized about what it would be like to run away from it all. By all appearances, Kate Carmichael has the perfect life: two adorable daughters, a prewar townhouse on the Upper East Side, and a husband who runs one of the most successful publishing companies in New York. But when Kate attends a wedding and reconnects with successful friends from graduate school, she suddenly sees her life in a different light: the career she didn't pursue, the dreams she's locked away, the empty veneer of her privilege. When the wedding weekend ends, instead of heading home to her husband and family, Kate gets on a plane and flies halfway around the world. She claims it's just going to be for a week—two max—just so she can clear her head and reconnect with her lost dreams. But the adventure doesn't go quite as planned. This provocative and gripping novel asks: Is a wife and mother allowed to have a midlife crisis? And, if she does, can she ever be forgiven? PRAISE FOR Marriage Vacation "Marriage Vacation has everything you want in a novel: fascinating characters, drama, secrets, emotional reckonings, and far-flung adventure. If you love Younger, you'll love this book. If you've never watched an episode of Younger (you should change that), you'll still love this book. And just wait until you read page 58!" —Darren Star, creator of Sex and The**

City and Younger “This brilliant romp helps us understand why Liza was so excited to discover the manuscript, how any woman could leave the dreamy Charles, and what exactly Pauline—by way of her fictional alter ego, Kate Carmichael—did on that mysterious Marriage Vacation. Pack this heartfelt, insightful, funny, sexy book when you take a vacation of your own.” —Pamela Redmond Satran, author of Younger

AFFECTIVE GOVERNMENTALITY

NEOLIBERAL EDUCATION ADVERTISEMENTS IN SINGAPORE

Springer This book investigates the subjectivities in education arising from the triumphant mobilisation of care as portrayed in educational advertisements, and provides a novel theory of affective governmentality based on empirical research on affect, neoliberalism, and governmentality. It also takes the bold step of encouraging the re-imagination of the central and pressing question of school marketisation in Singapore, and problematises the seemingly innocuous portrayals of care in light of neoliberal governmentality seeking to perform cultural work on preferred identities and subjectivities. Using a judicious selection of media artefacts, the book scrutinises the creation of emotional technologies through an ethic of caring, harnessing vulnerabilities and triumphalism. As such it not only equips readers to understand the role of emotional technologies but also offers a critical and alternative view of hope and aspirations for transforming society.

SOCIAL STUDIES FOR SECONDARY SCHOOLS

TEACHING TO LEARN, LEARNING TO TEACH

Routledge Now in its 4th edition, this popular text for secondary social studies methods courses integrates discussions of educational goals and the nature of history and social studies with ideas for organizing social studies curricula, units, lessons, projects, and activities. A major theme throughout is that what teachers choose to teach and the way they teach reflect their broader understanding of society, history, and the purpose of social studies education. Advocating an inquiry and activity-based view of social studies teaching that respects the points of view of students and teachers, and based in practice and experience, it offers systematic support and open, honest advice for new teachers. Each chapter addresses a broad question about social studies education; sub-chapters begin with narrower questions that direct attention to specific educational issues. Lesson ideas and materials in the book and online are

especially designed to help new teachers to address common core learning standards, to work in inclusive settings, and to promote literacy and the use of technology in social studies classrooms. Chapters include highlighted Learning Activities, Teaching Activities, and Classroom Activities designed to provoke discussion and illustrate different approaches to teaching social studies, and conclude with recommendations for further reading and links to on-line essays about related social studies topics. Activities are followed by four categories: "Think it over," "Add your voice to the discussion," "Try it yourself," and "It's your classroom." All of these are supported with online teaching material. Designed for undergraduate and graduate pre-service social studies methods courses, this text is also useful for in-service training programs, as a reference for new social studies teachers, and as a resource for experienced social studies educators who are engaged in rethinking their teaching practice. New in the Fourth Edition Provides a number of new lesson ideas paired with online lesson plans and activity sheets in every chapter Takes a new focus on data-driven, standards-based instruction, especially in relation to the common core curriculum Addresses the interactive nature of learning in updated technology sections Reflects current trends in history education Includes more of what the author has learned from working teachers Offers a wealth of additional on-line material linked to the text

REFUGEE AND IMMIGRANT STUDENTS

ACHIEVING EQUITY IN EDUCATION

IAP The focus of this book is on educational equity issues affecting immigrants and refugees around the world. Chapters highlight educational approaches that build from experiential knowledge, draw upon multiple languages, consider group identity, grapple with the complexities of inclusion, address family concerns, promote parental involvement, involve liaison with community agencies, and view cultural differences as educational strengths. While the book does not shy away from exploring the more challenging aspects of the refugee and immigrant experience, it avoids dwelling on victimology and rejects applying a deficit framework. Rather it offers hope, emphasizing the potential strengths of refugees, including their cultural capital and survival skills. The authors also make cogent suggestions for structural, pedagogical, and conceptual reform, with targets ranging from individual teachers to

educational systems to social, economic, political, and cultural contexts.

SO BLACK AND BLUE

RALPH ELLISON AND THE OCCASION OF CRITICISM

University of Chicago Press **"So Black and Blue is the best work we have on Ellison in his combined roles of writer, critic, and intellectual. By locating him in the precarious cultural transition between Jim Crow and the era of promised civil rights, Warren has produced a thoroughly engaging and compelling book, original in its treatment of Ellison and his part in shaping the history of ideas in the twentieth century."**—Eric J. Sundquist, University of California, Los Angeles

What would it mean to read *Invisible Man* as a document of Jim Crow America? Using Ralph Ellison's classic novel and many of his essays as starting points, Kenneth W. Warren illuminates the peculiar interrelation of politics, culture, and social scientific inquiry that arose during the post-Reconstruction era and persisted through the Civil Rights movement. Warren argues that Ellison's novel expresses the problem of who or what could represent and speak for the Negro in an age of limited political representation. *So Black and Blue* shows that Ellison's successful transformation of these limits into possibilities has also, paradoxically, cast a shadow on the postsegregation world. What can be the direction of African American culture once the limits that have shaped it are stricken down? Here Warren takes up the recent, ongoing, and often contradictory veneration of Ellison's artistry by black writers and intellectuals to reveal the impoverished terms often used in discussions about the political and cultural future of African Americans. Ultimately, by showing what it would mean to take seriously the idea of American novels as creatures of their moment, Warren questions whether there can be anything that deserves the label of classic American literature.

RALPH ELLISON AND THE RAFT OF HOPE

A POLITICAL COMPANION TO INVISIBLE MAN

University Press of Kentucky **An important new collection of original essays that examine how Ellison's landmark novel, *Invisible Man* (1952), addresses the social, cultural, political, economic, and racial contradictions of America. Commenting on the significance of Mark Twain's writings, Ralph Ellison wrote that "a novel could be fashioned as a raft of hope, perception and entertainment that might help keep us afloat as we tried to negotiate the snags and whirlpools that mark our nation's vacillating course toward and away from the democratic ideal." Ellison believed it**

was the contradiction between America's "noble ideals and the actualities of our conduct" that inspired the most profound literature -- "the American novel at its best." Drawing from the fields of literature, politics, law, and history, the contributors make visible the political and ethical terms of *Invisible Man*, while also illuminating Ellison's understanding of democracy and art. Ellison hoped that his novel, by providing a tragicomic look at American ideals and mores, would make better citizens of his readers. The contributors also explain Ellison's distinctive views on the political tasks and responsibilities of the novelist, an especially relevant topic as contemporary writers continue to confront the American incongruity between democratic faith and practice. *Ralph Ellison and the Raft of Hope* uniquely demonstrates why *Invisible Man* stands as a premier literary meditation on American democracy.

Adopting an anthropological focus on Greenland's vision to boost extractive industries and transform society, the book examines how indigenous communities engage with climate change and development discourses. It applies a critical and comparative approach, integrating both local perspectives and adaptation research from Canada and Greenland to make the case for recasting the way the Arctic and Inuit are approached conceptually and politically. The emphasis on indigenous peoples as future-makers and right-holders paves the way for a new understanding of the concept of indigenous knowledge and a more sensitive appreciation of predicaments and dynamics in the Arctic. This book will be of interest to post-graduate students and researchers in environmental studies, development studies and area studies.**
