Bad Girls and Transgressive Women in Popular Television, Fiction, and Film Springer *This collection of essays focuses on the representations of a variety of “bad girls”—women who challenge, refuse, or transgress the patriarchal limits intended to circumscribe them—in television, popular fiction, and mainstream film from the mid-twentieth century to the present. Perhaps not surprisingly, the initial introduction of women into Western cultural narrative coincides with the introduction of transgressive women. From the beginning, for good or ill, women have been depicted as insubordinate. Today’s popular manifestations include such widely known figures as Lisbeth Salander (the “girl with the dragon tattoo”), The Walking Dead’s Michonne, and the queen bees of teen television series. While the existence and prominence of transgressive women has continued uninterrupted, however, attitudes towards them have varied considerably. It is those attitudes that are explored in this collection. At the same time, these essays place feminist/postfeminist analysis in a larger context, entering into ongoing debates about power, equality, sexuality, and gender.*

Annotations will help researchers determine what materials best suit their needs. Historic photos of Toronto's streetcar network offer a unique opportunity to examine how the city has been transformed from a provincial, industrial city into one of North America's largest and most diverse regions. Streetcars and the Shifting Geographies of Toronto studies the city's urban transformations through an analysis of photographs taken by streetcar enthusiasts, beginning in the 1960s. These photographers did not intend to record the urban form, function, or social geographies of Toronto; they were "accidental archivists" whose main goal was to photograph the streetcars themselves. But today, their images render visible the ordinary, day-to-day life in the city in a way that no others did. These historic photographs show a Toronto before gentrification, globalization, and deindustrialization. Each image has been re-photographed to*

provide fresh insights into a city that is in a constant state of flux. With gorgeous illustrations, this unique book offers an understanding of how Toronto has changed, and the reasons behind these urban shifts. The visual exploration of historic and contemporary images from different parts of the city helps to explain how the major forces shaping the city affect its form, functions, neighbourhoods, and public spaces. **Saga #8** [Image Comics](#) Former soldier and new mom Alana has already survived lethal assassins, rampaging armies and alien monstrosities, but now she faces her greatest challenge yet: the in-laws. **Annual Report of the Commissioner of Patents** Prior to 1862, when the Department of Agriculture was established, the report on agriculture was prepared and published by the Commissioner of Patents, and forms volume or part of volume, of his annual reports, the first being that of 1840.
