The Boy, the Bridge, the River Reed A H Antiquity's Covered Bridge Dorrance Publishing Antiquity's Covered Bridge By: Dorine Emery Dorine Emery is an avid photographer of covered bridges. She began in her local area in New Jersey but knew the LC Beavens bridge in New Milford, Pennsylvania, was a must-see. It was Emery's fascination with the mountain that rises to the east of Mylert Creek and the bridge she knew was there

that led her to Antiquity's Covered Bridge. History and imagination are woven like the ivy vines on a latticed bridge, facts and fiction which Emery has found on and around the Nevermore area of New Milford. Fiction based on facts, then enhanced by pseudo possibilities might describe mystery within. Not without humor—it is Nevermore who owns Antiquity's bridge, nor without tragedy—that of Janie's sorrow over her dear Andrew and their baby, Cheri, Antiquity's Covered Bridge is a story to be pondered at a moderate pace. **Angels at the Eastport Bridge Balboa Press** Though it may seem a bit complicated, the story is simple, and when all the pieces are laid out, it is plain to see where it all began. It started with one single human by the name of Tane MacGregor; one single, officially insane, homeless dust rag of a man. He occasionally caught glances from passing strangers as he swung his feet rhythmically from the drawbridge over the calm waters of Spa Creek, and he was often found in the company of angels. As it was said, MacGregor was seen as the glue, the string binding all the events and beings which created a rather remarkable occurrence in the soft, beautifully adjacent, scenic towns of Annapolis and Eastport and, in particular, about the small Eastport Drawbridge over Spa Creek, spanning and dividing the two. Now, as the story would be told and retold in most homes and taverns around the Chesapeake for many years, it was too easily called coincidence. True, it began at a certain time with a certain person, in a certain situation, accompanied by an incredible series of events, people, celestial beings, lawyers, homeless schizophrenics, ghosts, God, junk food, and small deviations in time and space, with waving definitions of good and evil, all coming together in a perfect harmonic mix ... but coincidence? **A Bridge that Leads to God A forty-day conversation with God WestBow Press** I sat at a rooftop bar on an island in Florida, watching the sunset. I realized the first night that the sun wasn't only setting on the day but also on my life. I needed to hear from God concerning the end of my physical life, which is approaching. God gently taught me how to die and how to not be afraid of what is to come. He also taught me how to live, breathing hope into my soul. I have enjoyed my conversations with God, and in these pages, have attempted to share them with you. I pray that as you read, God becomes visible to you and that you find this book an enlightening treasure in your life. **Graphic Showbiz Issue 872 February 27-MAR 2, 2014 Graphic Communications Group Let Me Stop You Right There If This Isn't About Bridge I'm Not Interested Notebook for Bridge Lover - Great Christmas & Birthday Gift Idea for Bridge Fan - Bridge Journal - Bridge Fan Diary - 120 Pages 6x9 Inches Lined Journal for Bridge Fan - Nice and Funny Text Design Beautiful cover color, nice design saying 'Let Me Stop You Right There If This Isn't About Bridge I'm Not Interested' and simple lined interior - that's what perfect lined notebook for every person who loves bridge looks like. 120 white pages in very compact size of 6x9 inches with space for all important notes, thoughts and plans every person needs to write down in their bridge theme journal at univeristy, school, work and not only. Slam After Slam with Force Point The New Explicit Bridge Bidding Xlibris Corporation Force Point (Fp) Counting will help you to count your hand directly in contract tricks (the tricks that are above the initial 6 tricks, which are not counted in the game of bridge). The Fp Counting itself is a new low of the Total Tricks, much better than the old one. The sum of both hands contract tricks, yours and your partner, will give to you the game's Play Level (PL). No need evaluations by the time of the initial count, but one of you, who will ask his partner to reveal the exact distribution (between around 500 possible distributions), must apply some tricks' adjustments when a new distribution changes are discovered by the time of the Bidding. When you discover partner's exact shape, you will ask for the exact number of the contract tricks, thus finding your exact PL. Then if the $PL = 5.5$ you must ask your partner for all of the TOP Honors. With Fp you will be able to discover all of the partner's Aces + Kings + Queens with one only question - one answer! No other bridge system is capable of doing that! Then you have to calculate the final PL, and may ask your partner where are the TOP Honors or directly to choose the final contract. The calculations are for a 7 grader, so the difficult decisions in the game of bridge proved to be a simple arithmetic, not even a math. Using one only SCOR-SCOR Convention for all of your Distribution and Control needs (along with the classical Stayman, of course) will allow to you to see transparently the exact cards and lengths of the suits of your partner before the attack. The Playing is your own responsibility, I can only assist you about the Bidding. On Bidding Contests with 12 TOP Matchpoint scoring, Fp will provide to you no less than 70% (usually close to 80%), but pay attention that on such Contests you will have to bid most difficult distributional games collected around the world. For the love of the Game Force Point Bidding Developer: Mr. Pawell Boiew
